

FOOTBALL MANAGER TOUCH 2016

*Available for PC/Macintosh and high-end tablet devices**

Designed for those who prefer a more streamlined, faster-paced experience, **Football Manager Touch 2016** focuses on the manager's core duties while still delivering an ultra-realistic matchday through the 3D match engine.

All versions of Football Manager Touch (which is a single player experience) are fully 'cross-save' compatible with one another (and also with 'Touch' mode in the full Football Manager simulation) so careers can be saved to the cloud and enjoyed both at home and away.

Football Manager Touch 2016 will be available before Xmas. It will also be available as a separate game mode in the 'full' Football Manager 2016 package.

FOOTBALL MANAGER TOUCH 2016 - KEY FEATURES

Cross-Save

All versions of Football Manager Touch 2016 are 'cross-save compatible' with one another, so a career started on a tablet can be saved to the cloud and continued on computer (and vice versa).**

Matchday Experience

Football Manager Touch 2016 offers enhanced tactical options, including set-piece planning and opposition instructions – all of which play out in the acclaimed Football Manager 3D match engine.

Create-A-Club Mode

Match Analysis

For the first time, Prozone match analysis comes to Football Manager Touch 2016, allowing managers to fully analyse either their full team or individual players after the final whistle.

New Unlockables

Brand new unlockables reward you for progress in your career; 'All Job Applications Accepted' helps you get your foot in the door at a new club, while 'Design a Son' allows you to fully customise your own in-game offspring who will come through into your squad.

Opposition Instructions

Prepare your team for the match ahead by setting opposition instructions which tell your players how to treat certain members of the opposing team to limit their performance as much as possible.

Improved Screens

Football Manager Touch 2016 features a more intuitive virtual manager's office, with redesigns to many key screens including manager home, transfer, contract, player and tactics screens.
