3. Now, select the number of computer players you wish to compete against. Enter your selection by placing the cursor over your choice and pressing Button B.

4. At the prompt, enter the names of the human players in the order in which you wish to compete by moving the cursor over the desired letters and selecting them by pressing Button B. 6. If you are playing against a computer player or players, they will enter their own name(s) and contestant(s).

HOW TO PLAY ROUND 1

1. The screen opens with the Wheel of Fortune board displaying the category and the puzzle. The category could be: PERSON, PEOPLE, PHRASE, PLACE, EVENT, TITLE, THING, THINGS, FICTIONAL CHARACTER, SAME NAME or BEFORE AND AFTER.

a. The letters involved in the puzzle will be highlighted in gray.

b. The players' names appear in order of play, going from left to right across the top of the screen.

c. The round that you are in is displayed just above the game board.

d. All of the player's information is displayed as follows:

2. A message will appear on the bottom of the screen indicating that it is Player #1's turn to play. Player #1 may choose to SPIN, BUY a vowel, or SOLVE the puzzle. (Players usually elect to SPIN for the first few times until several letters appear on the board.)

3. In order to BUY a vowel, the player must have at least \$250 in winnings for the current round.

4. A player must make the decision to SPIN, BUY a vowel, or SOLVE the puzzle quickly, as the timer located in his/her score box is counting down. (The timer is indicated by a white bar appearing under the contestant's name and counts down from right to left). If the decision is not made within the allotted time, a message will come up on the screen indicating that the player has run out of time. If the player runs out of time, play passes to the next player.

5. CHOOSING TO SPIN

a. Player #1, if you decide to SPIN, lock in your choice by moving the cursor over the SPIN wheel and pressing Button B.

b. After selecting SPIN, you will go to the contestant screen.

c. The strength which you will exert in spinning the Wheel is indicated by a white line appearing directly under your name. Press Button B to select the desired strength. (The longer the white line, the more power in the spin.)

d. The Wheel on the screen spins and the dollar value on the Wheel is displayed in a box above the Wheel.

e. When the Wheel stops, the dollar value on which the Wheel lands determines the value of the consonant you will be selecting during your turn.

f. In addition to landing on a dollar amount the following may happen:

1. If the Wheel stops on BANKRUPT, you will lose all of your winnings for the current round.

2. If the Wheel stops on MISS A TURN, you lose/miss your next turn.

3. If the Wheel stops on FREE SPIN, you will earn a FREE SPIN only if you choose a consonant correctly. You can use this FREE SPIN during any round, except the bonus round.

6. ENTERING YOUR CONSONANTS

Once the value of your letter is determined, the game directs you to ENTER A CONSONANT.

Scroll right or left with the cursor to the letter of your choice and lock it in with Button B.

a. If the consonant is correct, its location lights up on the game board and Vanna turns over the letter. The value of the spin for that consonant is entered above your name. (If that consonant appears more than once, the value of your spin is multiplied by the number of times that particular consonant appears in the puzzle.) If your choice is correct, you will once again be prompted to SPIN, BUY a vowel, or SOLVE the puzzle. You may continue playing until you either choose a letter incorrectly, incorrectly try to solve the puzzle, spin the Wheel and land on MISS A TURN or BANKRUPT, or run out of time when selecting the letter.

b. If your consonant is incorrect, the game informs you that that consonant is not in the puzzle. Play then passes on to the next contestant.

7. BUYING A VOWEL

You may choose to buy a vowel as long as you have earned \$250 in the current round of play.

a. If you decide to buy a vowel, place the cursor over the VOWEL wheel and press Button B.

b. The \$250 is deducted from your winnings whether or not that vowel is in the puzzle.

c. The cost of a vowel is always \$250, regardless of how many times that vowel appears in the puzzle.

d. If you do not have \$250, you will not be allowed to buy a vowel.

e. If you choose a vowel that is not contained in the puzzle, then play passes on to the next player.

8. SOLVING THE PUZZLE

During any of your turns, you may choose to solve the puzzle.

- a. Move the cursor to Solve and lock in with Button B.
- b. A flashing tile appears at the first missing letter. Move the cursor over the letter of your choice and lock in by pressing Button B. Continue to enter the missing letters until you have completed the puzzle or run out of time.
- c. When you have completed the puzzle, move the cursor to END and press Button B, or simply press Button C to end.
- d. If you make a mistake when entering the letters, move the cursor to DEL and press Button B to delete the last entry, or simply press Button A to delete.
- e. If your solution is correct, a message will appear congratulating you on winning the round and will display your winnings for that particular round.
- f. If you are incorrect, play passes to the next player.
- g. Press Button B to continue.

NOTE: Speed is essential since the timer is counting down. Accurate spelling is also essential - even one incorrect letter will make the response incorrect.

HOW TO PLAY THE FOLLOWING ROUNDS

1. After Round 1, the game returns to the contestant screen displaying the winner's winnings. This will be done after each round, showing each player's accrued earnings for the entire game up to that particular point in play.

2. Round 2 is played the same as Round 1, however, a \$2,500 space is added to the Wheel. Round 3 also follows the same rules as Round 1; however, a \$5,000 space is added to the Wheel.

3. Player #2 starts Round 2. Player #3 starts Round 3. (If only two players are competing, then Player #1 starts Round 3.)

HOW TO PLAY THE BONUS ROUND

1. If you are the winner, your name and winning score appear on the screen. Press Button B to continue.

2. There is a different prize behind each letter of the word WHEEL. You must select one of these letters by moving the cursor over the star containing your choice. Lock in by pressing Button B. The prize will not be revealed unless you have solved the puzzle correctly.

3. At this point, you will be shown the bonus puzzle. The consonants R, S, T, L, N and the vowel E will be revealed if they are in the puzzle. Press Button B to continue.

4. You may now choose three more consonants and one more vowel. Move the cursor to the letters of your choice and lock in using Button B. Make your selections quickly because the timer will be counting down. If any of the letters you have chosen appear in the puzzle, they will be revealed on the game board.

5. The timer will reset and you will be asked to solve the puzzle.

6. TO SOLVE THE PUZZLE:

a. A flashing tile appears at the first missing letter. Move the cursor over the letter of your choice and lock in by pressing Button B. Continue to enter the missing letters until you have completed the puzzle or run out of time.

b. When you have completed the puzzle, move the cursor to END and press Button B, or simply press Button C to end.

c. If you make a mistake when entering the letters, move the cursor to DEL and press Button B to delete the last entry, or simply press Button A.

7. If you have solved the puzzle successfully, you win!

8. The prize that you had selected earlier will be revealed by pressing Button B.

MESSAGE TO PLAYERS

This Cartridge uses a program which randomly accesses the puzzles in the database. When your Genesis System is turned off, the entire puzzle file is cleared and made available for future play. Puzzles are selected at random by the computer, so although there are over 4,500 puzzles, repetition may occur. If during a round, you wish to have a different puzzle, press Button A to change the puzzle or Button C to continue game play.

This game has been programmed to utilize the full TV screen. Since some older model TV sets have rounded screens a portion of the image may be blocked out.

HINTS ON GAME PLAY

1. Correct spelling is essential when solving a puzzle. We recommend that you check all the letters you have entered before you select END.
2. Each time a player guesses a letter correctly or incorrectly, that letter is eliminated from the alphabet on the screen.
3. When all the consonants have been selected, the only options available are BUY A VOWEL or SOLVE PUZZLE. A message will appear on the screen indicating when only vowels are left in the puzzle.

4. When only vowels are left in the puzzle, the player whose turn it is currently can either solve the puzzle or buy a vowel (if they have \$250). If the player chooses a vowel that is in the puzzle, then he/she may either continue buying vowels, (again, as long as they can afford it) or solve the puzzle. If the player chooses a vowel that is not contained in the puzzle, then play is passed on to the next player. If all letters have been turned over in the puzzle, then the player whose turn it is can solve the puzzle by selecting SOLVE and then selecting END.

5. BANKRUPT only applies to the winnings of the current round. The player's accrued winnings from previous rounds are not lost.
