ARENA

MAZE OF DEATH

The year is 2026 and the country is now run by a corrupt government. Working in collusion with the Astralnet Broadcasting Company, the government has siezed control of all media. Over the past several years the population has been fed filtered information and propaganda. Unwittingly, the people have believed what they have been told. *But things are about to change...*

Guy Frelander, together with a group of pro-democ-

racy rebels, have stolen a video tape depicting government leaders and the head of Astralnet discussing further plans to exploit the media. This information would make the population aware of the years of misinformation being communicated to them.

The only barrier to exposing the government's scheme is obtaining access to a central broadcasting studio that is capable of airing the stolen tape simultaneously across all television channels. This broadcasting station is hidden in the Astralnet office building, known as **The Arena**. The building is so heavily protected by security men, androids, robots and mutants that some strategists believe that not even a fully equipped assault team could successfully penetrate **The Arena**.

However, the rebels believe that a single person might be able to infiltrate the building. The basement of the Astralnet building is linked to an unused train station and might be reachable by passing

through an industrial park and several underground caverns. Although most of these areas are owned and protected by the company, they are not as heavily fortified as the more obvious entrances.

The only way the tape can be broadcasted is if one person can somehow penetrate the underground structures and break into Astralnet's building. Once inside, the infiltrator will have to blast his way to the broadcast room and air the tape to the nation. *Guess who that "infiltrator" is?*

WEAPON UPGRADES

Throughout the levels, Guy will find various guns and crates of grenades. The guns obtainable are:

Machine Gun

This is the standard weapon, powerful, but with limited ammunition. Some mutants are immune to its firepower.

Laser Rifle

Offers rapid fire with a deadly impact. A good all around weapon.

Flame Thrower

Very effective at inflicting a great deal of damage.

Photon Launcher

Three-way fire, best used when under heavy, close combat.

Ion Cannon

The most powerful of all the weapons, heavily damaging everything within a given radius. The weapon offers one shot at a time.

Grenades

The grenades badly damage everything within a given radius, but they can also destroy obstacles that prevent Guy from proceeding. They are very limited, however, and are generally only found in boxes of six, so be careful not to waste them.

ARMOUR

Also scattered across the levels are **Shield Power-Ups** that protect Guy from enemy fire. The more armour he has, the less affect enemy attacks will have on him.

Mini Armour Bonus

Reduces damage from enemy attacks.

Super Armour Bonus

Provides stronger protection against enemy attacks.

**Armour becomes less effective with each hit taken.*

BONUS ITEMS

There are numerous miscellaneous items to be collected that help complete the mission:

Extra Life Bonus

Provides one more chance to break into The Arena.

Mini Energy Bonus

Collect large and small health boosters - the larger giving a stronger health boost.

Super Energy Bonus

Picking up this power-up gives a stronger health boost than the Mini Energy Bonus.

DOORWAYS

Certain doorways will be locked. Guy must find a pass which gives him access or find the switch that opens the door.

OTHER OBSTACLES

Additional obstacles such as floating platforms, conveyor belts, barrels and boulders will need to be triggered, destroyed or avoided. We'll leave it up to you to figure out exactly how...

TRICKS

Platform Activator

Moves platforms and opens doors.

Teleporter

Teleport out of dangerous situations!
