We have made this racing simulator for all the racing drivers around the world.

The racing simulator "F355 challenge 2" is realized with the partnership of Ferrari.

For aspiring pro-racers, we have built in the realistic handling the same as the previous F355 Challenge.

Furthermore, we have improved the driver's controls - steering control, lap time taking etc.- to give a dynamic driving experience .

To give a new driving race for players, Five New world popular courses have been added.

Including FIORANO, LAGUNA-SECA, SEPANG, NURBURGRING and ATLANTA in addition to the previous MONZA, SUGO, SUZUKA and long beach.

New courses have unique features individually such as slope, bank and so on.

Selectable from all 9 courses.

By using "Naomi" Game BD, we have provided superb graphics and sound.

We have developed the highest level of driving simulator under supervision of a number of top professional racers.

W:2080mm(81.89in) D:2260mm(88.93in)
H:1833mm (72.17in)
Weight: 607kg/1348.89lbs
Power: AC230V-750W Monitor: 29" x 3

The development team got the data for actual F355 driving like G-force and car handling with the assistance of pro-racers. We have utilized strong technical know-how and computer graphics imaging to the highest standard of which we are presently capable of producing, all for the purpose of getting as close as possible to the real-world F355.

AI (Artificial Intelligence) Assist Functions are included.

Even beginners have fun while improving their skills with 6 gear stick-shift and a clutch (Dlx cabinet), there are also assist-driving functions.

Driving data printouts are available (Dlx Model only)

You can check your driving line and lap time on the racetrack, as well as engine RPMs, speed and gear over all sections. By comparing your data with other drivers, you can check how well you did and prepare for the next race.
