

SEGA®

**Performance
Plus Profit.**

TURBO™

SEGA/Gremlin's newest driving game, TURBO, offers high speed performance for players and high earning profit for you.

Turbo gives players a brand new perspective of racing. No more back seat driving! Turbo's true to life scenographic perspective puts players right in the driver's seat, whirling through city streets and tunnels, over highways and bridges.

SEGA™ TURBO™

Racers off to a good start.

Turbo screeching towards the country.

Tunnel vision raceway.

Dangerous ocean-front palisade racing.

Turbo lapping racers at sunset.

The aerodynamic Turbo cockpit is fully equipped with an L.E.D. instrument panel that maps acceleration, indicates the top five scores to beat, shows score of the last game played, and measures record breaking speeds. Standard features include a pro rally steering wheel, responsive 2-speed gear stick shift, illuminated oil and temperature gauges and a full power accelerator, all in the realistic cockpit of a turbo charged race car.

Turbo is also available in the compact upright, with score indicator, gauges, steering wheel, stick shift and accelerator built for maximum space efficiency.

Both models offer behind-the-wheel excitement in a grueling cross country race. Road handling skills are put to the test as the Turbo course winds through busy city streets, narrow suspension bridges, blind tunnels and rambling country roads.

Sudden changes in road conditions such as snow, wreckless competitors and emergency-routed ambulances further challenge the player's driving abilities.

No pit stops are permitted in this fast-paced race to the finish. Points are accumulated as Turbo successfully routes through each phase of the course, lapping other cars. Drivers can monitor their progress at a glance with read outs for time remaining on the clock (adjustable) and number of cars passed at the top of the screen.

Collision during the first lap sends drivers back to the starting line. In succeeding laps, however, a collision explodes the Turbo car on impact.

In a rolling rural straightaway, road dips obscure cars ahead creating a hazardous sequence that taxes the driver's skill. Exercise caution and check speed while climbing steep hills.

An extended play *bonus* is awarded when drivers pass sufficient cars with time to spare. Lapping cars during this phase tacks on bonus points.

Turbo can be your high income pacesetter. Visit your local SEGA/Gremlin distributor today and test drive a TURBO.
