

## ***FOOTBALL MANAGER™ 2010***

### **ANNOUNCEMENT SCREENS GUIDE**

#### **Coach Report**

Get feedback from your coaches on your players' personality, strengths, weaknesses, ability and potential.

#### **Manager Home**

[A re-worked and configurable manager home screen](#), highlighting [the new User Interface for the game](#).

#### **Match Analysis 1, 2 & 2A**

New for *Football Manager 2010*, the match analysis tool allows you to see where shots, passes, crosses, headers, tackles, fouls and interceptions have happened for both sides, both live in game, and post match, allowing you to work out your and your opponent's strengths and weaknesses.

#### **Match Engine 1, 2 & 3**

Improved AI featuring over 100 new animations in 3D mode, with better lighting, improved pitch degradation, stadiums & crowds.

#### **News Black & News White**

A subscription based newspaper. Get the news about the football world around you that you want, and not the news you don't want – showcasing both the new light and dark skins for *Football Manager 2010*.

#### **Pitchside Instructions 1, 2, 3, 4 & 5**

Make instant changes to your team with the new pitchside instruction tool allowing you to change your team strategy, make quick subs, and issue individual player instructions and more.

#### **Tactics 1, 3, 5, 6 & 8**

A new tactics module, making it easier to make your team play as you want them to. Set your team's formation, philosophy and strategy; then tweak your individual player settings to get the edge on your rivals.

Release date – October 30<sup>th</sup> 2009

Formats – PC & Mac
