SEGA SATURN

SEGA SATURN.

HERE NOW

SEGA SATURN
READY FOR THE FUTURE

If you want unrivalled access to the best interactive entertainment available now and in the future, one next-generation console stands out: Sega Saturn.

Only Sega Saturn can deliver the top arcade titles, plus the most innovative games from Sega's own development teams and a huge roster of 3rd Party developers.

By the end of 1996 there will be well over 200 titles in a wide range of game genres available for the Sega Saturn.

IT DOESN'T STOP THERE.

The Sega Saturn has true multi-media capabilities. It can play all your audio CD's and with the optional Video CD Card you have access to the ever growing library of Video CD's.

What's more, Sega Saturn owners will soon be able to surf the net thanks to the Sega Saturn Net Line, due for release in early 1997. The Sega Saturn's internet capabilities will be greatly improved with the addition of a keyboard and other peripherals.

LOVINGLY SCANNED BY SEGA SATURN.CO.UK

HOW DOES THE SEGA SATURN ACHIEVE ALL THIS?

The Sega Saturn houses three Hitachi RISC processors creating a 32-bit parallel processing powerhouse producing an astounding half-million polygons per second.. Special effects and movement are separately controlled for maximum efficiency. 32 channel digital sound capabilities are delivered by a dedicated 16-bit processor and Yamaha DSP custom sound chip (including SurroundSound mode). The Sega Saturn also features an intelligent double-speed top-loading CD Drive for ease of use and faster loading times. In addition, the Sega Saturn comes complete with 256Kb of internal memory to save all your best scores or game data.

THE CHOICE IS SIMPLE...

If you want to play the best games from both the arcade and the world's best programmers; the opportunity to surf the net; watch top movies and listen to audio CD's, there is only one choice.

The choice is **Sega Saturn.**

BAKUBAKU

A wickedly wacky, fascinating and unusual puzzle game where you match animals to their food to clear the screen. Mountains of food and a menagerie of animals - but who eats what? These crazy creatures munch their way round the set - glad to win, not so glad to lose. Trigger combos by arranging the animals... drop the icons to start another animal banquet... and just feast on the sheer enjoyment of it all.

With 10 characters capable of over 2000 moves in total, this frenzied fight-feast proves how faithful the Saturn is to the arcade equivalent. Running at twice the speed of the original Virtua Fighter and using the Sega Saturn's high resolution mode, VF2's incredibly smooth graphics and fearsome gameplay redefine the boundaries of home entertainment.

VIRTUA FIGHTER 2

FIGHTING VIPERS

The latest AM2 arcade hit arrives on Sega Saturn. Eight street-seared fighters plus a mysterious boss get serious, VF2-fashion, as you nail them to the walls of an enclosed arena. And, as armour corrupts and damage is inflicted under the crushing weight of your assault, watch the sparks really fly!

NiGHTS

into dreams...

SONIC TEAM
PRESENTS

Okay, here's the sketch. Wiseman, evil Lord of Nightmare, is out to waste the good folk of Nightopia. In that wierd subworld between fantasy and horror, you bond with Elliot or Claris - whose dreams make up the levels - and acrobatically fly in full 360-degree motion into the far off land of their subconscious...immersed in NiGHTS' body.

LOVINGLY SCANNED BY SEGA SATURN.CO.UK

NiGHTS is developed by 'Sonic the Hedgehog' creator Yuji Naka, and SEGA's Japan-based 'Sonic Team'. Yuji Naka's creative team has used new development tools to produce previously impossible game features such as smooth detailed 3D spaces in real time with free character movement at 'Sonic' speed. With fluid viewing angles, fast-paced action and a surreal world of dreams, NiGHTS delivers a revolutionary new aspect to gameplay on the Saturn.

wipeout™

LOVINGLY SCANNED BY SEGA SATURN.CO.UK

Your hovercar's at pole position in the Anti-Gravity Racing League. But you need more than just driving skills: only pure killer instinct will win the day. And you'd better blast your opponents into infinity - before they do the same to you...

The Lemmings are lost in a crazy 3D world and they need your help to escape! 100 levels, 9 Lemmings skills and even a virtual Lemmings-eye view make this a huge and hilarious puzzler for big-hearted humans everywhere.

PSYGNOSIS

Lemmings™

PSYGNOSIS

Terry Pratchett's cult classic headspins into Saturn. Get into the wizard's threads and be amazed - as Rincewind pursues a terrorist dragon and takes on everything this quirky universe can conjure up. And the further into Discworld you go, the more surreal it gets: secret Masonic lodges, the bizarre L-Space and time travel so wierd you think you're going to meet yourself coming back...

SEGA

PANZER DRAGON II

The shoot 'em up classic gets sophisticated - but it's no less fearsomely exciting. A haunting realtime soundtrack adds to the edgy atmosphere, as your flightless Hatchling evolves into the magnificent, malevolent Skydart, powering through the gorgeous backgrounds in ferocious splendour. Then reveal Pandora's Box - the excitement builds every time you play.

HEART OF DARKNESS

LOVINGLY SCANNED BY SEGA SATURN.CO.UK

Imagine the best cartoon in the world. Now think interactive. Put them together and you've got this phantasmagoria of a game, where drop-dead beautiful graphics become yours to warp to your heart's content. Your rocket crashed and your dog disappeared, you're facing down the freaks of the multiverse, hell-bent on finding your faithful companion via a mindspinning series of puzzles and platform levels.

An archaeological expedition to unearth long forgotten treasures revealed a history more dark and depraved than anyone thought possible... a lot more...
An ancient evil force, not of this time - or this world - has remained buried since the Egyptians walked the Earth.
BUT NOW IT'S EXHUMED

LOVINGLY SCANNED BY SEGA SATURN.CO.UK

Exhumed

BMG
INTERACTIVE

GUN GRIFFON

This armoured mechanoid is the most sophisticated military hardware yet to grace the battlefields of the 21st Century. With a devastating array of weapons, it's your job to command your army through a ballistic battlefield and knock out your enemy's key strategic defences before time runs out.

WORLDWIDE SOCCER II

THREE DIRTY DWARVES

Four genetically altered geeks have summoned a rag-tag posse of Orc Dwarves through their Dungeons and Dragons board to rescue them from the clutches of their maniacal captor. One to three players can guide these Dirty Dwarves through a hard-hitting wacko world of cartoony ghettos and freaked out bosses.

SEGA RALLY CHAMPIONSHIP
SEGA RALLY
CHAMPIONSHIP
INTERNATIONAL RALLY

AM R&D DEPT #3

LOVINGLY SCANNED BY SEGA SATURN.CO.UK

The king of the coin-ops hits Saturn - and shows the others a clean set of treads. A rallyload of exciting extras have been tooled in to this breathtaking conversion, with customised tyres, suspension and handling; two-player split-screen thrills; and the amazing Ghost Mode, where you're thrown into the deep end in a do-or-die attempt to better your best time.

Tetsuya Mizuguchi, the main man from AM R&D in Japan, responsible for Sega Rally, turns his teams' attention from 4 wheels to 2 with Manx TT. A characteristic of Tetsuya's development process is the 'experience', which means many of the main team are taken on trips to absorb the atmosphere. With Manx TT it's the feel of the road underneath and the tyre in front of the handle bars that makes the difference.

and here's the real thing... Team Sega Suzuki. Jim Moodie and Shaun Harris were sponsored by Sega in the recent Isle of Man production TT race. Reaching speeds of up to 190 m.p.h. on the world's most lethal race track, Jim and Shaun stretched their street-legal Suzuki GSX-R 750 bikes to the limit, so much so that Jim had to complete his race with no front brakes... and he still came 2nd in the 750cc class!

MANX TT
Super Bike

It's heavy metal thunder as Sega Rally upgrades to two wheels, in this grandstanding replica of one of the world's most famous motorcycle races. The cream of the TT world helped design the game that just keeps getting faster. See your opponents eat the gravel of the faithfully-rendered Isle-of-Man TT course or AM3's own exciting track - and be proud as the crowd roars you to new heights of racing endeavour.

Jim Moodie

AM R&D DEPT 3&4

ATHLETE KINGS

LOVINGLY SCANNED BY SEGA SATURN.CO.UK

This coin-op conversion puts you in the arena in any one of 10 international events, be it track or field, you can be sure that you'll be up against the world's best competitors. Both stamina and skill are essential if you're to take a medal!

SONIC EXTREME

VIRTUAL ON

CYBERTROOPERS

Choose from eight Cyber Troopers as one-to-one robot combat is set to brainstun.

Your Virtuaroids are armoured to the hilt and armed to the teeth with laser swords, rockets and more - so there's no backing down until one mechanoid reigns supreme. Dual joystick controls get your fighter leaping into obstacles and hovering in mid-air, screaming through a scintillating 3D arena in a devastating, state-of-the-shoot-em-up extravaganza.

VIRTUA COP

In one of the greatest of all coin-op conversions, you're one of the cops up against the might of the EVL corporation. With addictive gameplay in three giant levels - plus bosses - this game really is armed and dangerous!

VIRTUA COP 2

Streetsmart agents Rayge and Smarty just got an education. Now they're back to clean up Virtua City in the shoot-em-up which picks up the pieces. Thing is, whose pieces are we talking here? The bad guys are still riding roughshod over the cityscape, but now here's Janet to help the dynamite duo in their never-ending quest to cancel the psychotic EVL corporation influence. This is where the terminators get totalled, but only if you're on the case...

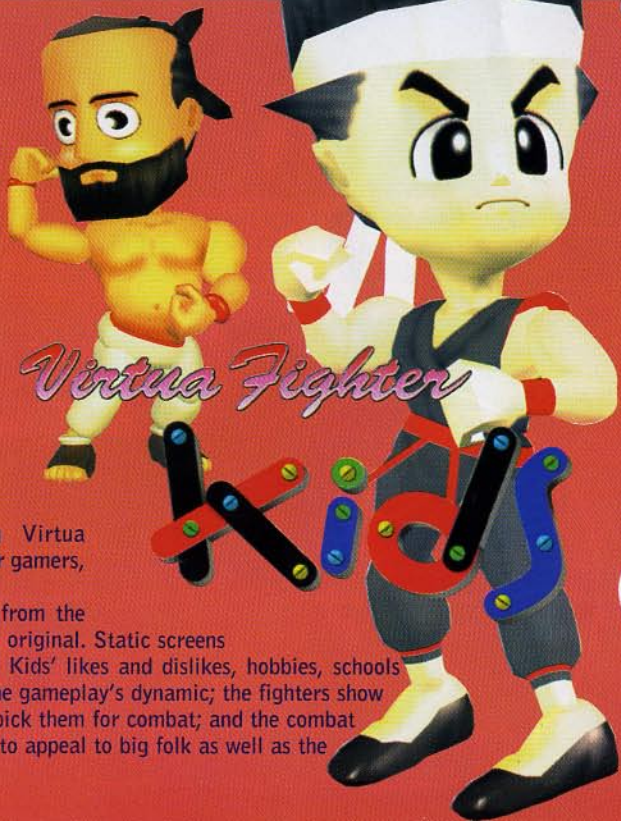

Pay attention. The Cool Spiky One is back... in a heads-down, all-night destructo-party. And back too is Dr Robotnik, glossing up the Moebius Death Egg and bent, as ever, on world domination. Only one creature can fit into the interceptor craft to stop him - and there are eight to fight it out. Will it be Sonic? Or will another woodland wonder win the chance to neutralise the Doc? Watch this space...

SHINING WISDOM

R U tuff enuff? Here's weeks of play - but not for the weakhearted - where the demon Elves of Parmecia are looking to waken the Dark Giant. And you're the only good guy in their way. As you progress, you gather items and orbs to help you fathom the mysteries of an endlessly fascinating world. Explore secret rooms, rescue the Princess, brave the Lost Forest, save the world. Simple, it ain't. Wonderful, it is.

Virtua Fighter

It's a charming Virtua Fighter for younger gamers, with kiddie themes brilliantly refined from the big-hitting biggies' original. Static screens flag up the Virtua Kids' likes and dislikes, hobbies, schools and blood types; the gameplay's dynamic; the fighters show their appreciation as you pick them for combat; and the combat angles are wicked enough to appeal to big folk as well as the wee'uns.

STORY OF THOR

2

New weaponry and player skills make the Megadrive megastar totally at home on Saturn. Your character seeks six elemental spirits who'll add their power to his. Will his scimitar, bow, rod and sinuous movements respond to the joypad as you take on and take out the villains of the vistas? Whatever, you'll do it to frantic music, fabulous sound effects and the best gameplay this side of Hades...

MR BONES

THE TROCADERO, PICCADILLY CIRCUS, LONDON

Segaworld is the world's largest indoor futuristic theme park, where the future can be experienced first hand, all year round.

Due to open in August 1996 at the Trocadero, in the heart of London, it is expected that at least 1.75 million visitors a year will share the Segaworld experience.

Visitors to Segaworld will be welcomed to a totally new and incredible technological world. Transported by rocket escalator to the top of Segaworld, they will then work their way down the floors. Each floor will be uniquely themed, containing a different ride and a host of interactive experiences.

Beyond their wildest imaginings, visitors will not only travel to, for example outer space, but will become immersed in it, even looking down to see their clothes transform into space suits. During tests on Aqua Planet, the undersea

adventure, people actually held their breaths because they thought they were underwater.

The first in Europe, Segaworld will provide the blueprint for a roll-out to major European cities over the next few years. As with Segaworld, each futuristic indoor theme park will be themed and customised to harmonise with the culture and character of the country and with its immediate environment.

For more information, find Segaworld on the Internet at www.segaworld.com

This fast-flowing shoot-'em up action/ adventure puts you in a futureworld of such complexity and scale that you'll need all your reflexes to survive your missions and save the lives of a nation.

TUNNEL B1

ocean

VIPER

NEON

ocean

Take to the skies in your attack craft with one objective... to reconquer the world by whatever means necessary.

With stunning 3D graphics, awesome speed and explosions galore... Viper is the story of living on the edge... literally.

Arcade Racer
Smooth steering and quick gear changes can make or break your chances of success. With telescopic and tilt systems allowing you to adjust your steering wheel's height and angle, this superb accessory delivers them all.

Virtua Stick
Achieve the arcade experience with eight buttons giving the essential rapid-fire control required to beat the best.

Six Player Adaptor
Add even more excitement to your gameplay by boosting the competition- or co-operation - with this excellent multi-player accessory.

Back-up memory
Supplements your Saturn memory and stores game data with 4Mb of back-up RAM. Essential for sports, RPG and other titles with special 'save' feature. And it's 4 times more powerful than the back-up memory of another games system we haven't mention...

3D Control Pad
This curvy controller gives you the flexibility of switching between Analogue, which gives you fluid control in any direction with analogue acceleration... and conventional digital manipulation. If you want complete control... this is the peripheral for you! To be launched in conjunction with NIGHTS.

Photo CD Playback
The Sega Saturn Photo CD Playback facility allows up to 100 standard 35mm photographs - both negative and slide - to be stored on a photo CD disc. Played back via Sega Saturn and Photo CD Operating System, your photographs take on a new, exciting and wholly professional identity...

Control Pad
Ergonomically designed with eight buttons for total control and maximum gameplay.
