SEGA[®]

Introducing the Sega System™ of Entertainment.

An interactive video game system without any limits. It's an intriguing thought. An even more intriguing reality.

The Sega System.

Perhaps the most advanced interactive video game system ever designed.

And, it has unlimited software possibilities. Because it already takes both cartridge and the revolutionary Sega Card.™

All kinds of games. All kinds of fun.

No one knows quite as much about what makes great arcade games as Sega. Because Sega has been creating the world's most popular arcade games for over 20 years.

With The Sega System, you'll not only play quality arcade-like games at home, you'll be challenged by fantasy space games, fast-action racing games, realistic sports simulations and tests of karate survival.

And, because we're constantly developing new games, we'll be updating our software catalog periodically. If you'd like a copy, or have any questions or comments, just call 800-USA-SEGA or in California call (415) 742-9300.

Now, take a quick look at some of the games currently available for the Sega System.

THE SEGA CARD™

The Sega Card is a whole new approach to home entertainment software. So new, that no one else has it.

Super Tennis™

You are all over the court in this hard-fought test of your tennis and game skills.

You pick the court surface.
Choose singles or doubles.

Then serve. Smash. Volley.

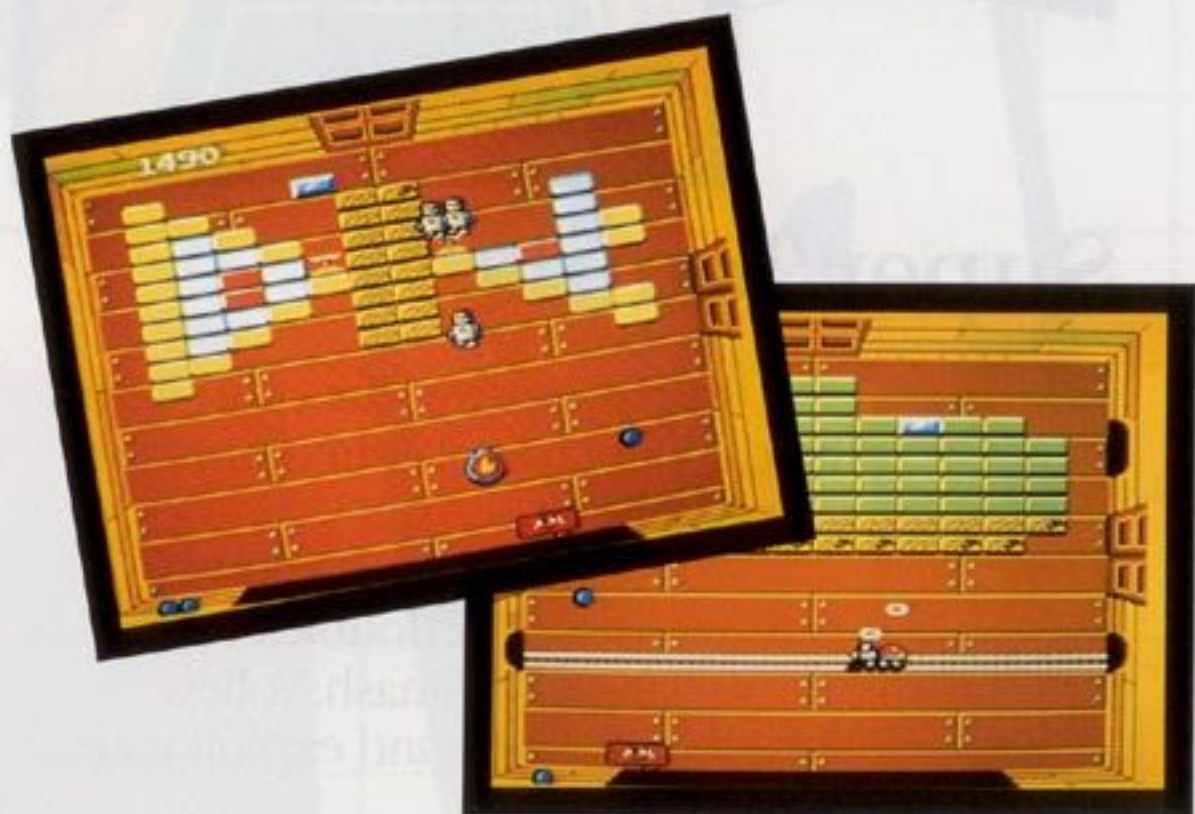

Use your strength and exploit your opponents' weaknesses.

This is tennis at its best. Game. Set.
The match is yours!

You're Mick. And the good news is that you're to inherit the family jewels. The bad news is that they're hidden inside Count Dracula's mansion.

Wipe out the bats, Draculas and their annoying henchmen. Discover hidden keys and passageways. And retrieve your family's long lost treasure.

Ghoul luck—you'll need it.

Teddy Boy™

Scramble from one nightmarish maze to another bumping off bugs, guppies, snails, dominos and more as you go.

But beware. You must avoid the ugly Den Den, a snapping dragon head. Or you'll be forced to wake up to reality.

F-16 Fighting Falcon™

This is the most perilous dog fight ever to explode on the video screen. It's between an F-16 (you!) and a MIG-25 plane.

Your F-16 is a multipurpose fighter. But the MIG-25 was built for speed.

This is simulated flight at its most realistic. And simulated battle at its most deadly.
