

XD Theatre | Triotech | Simulator

Turn any location into a real time motion theatre with Triotech's XD Theatre, a 6D motion simulated thrill ride that transcends time, space and imagination. With our unique and cost effective motion seats, you won't have to compromise your standards for successful entertainment

Available from 4 seats upwards | 6D | 12 movies available | Up to 2 G's of acceleration

Convenient installation

The motion platforms are so adaptable that you can install them in any location. There is no need for any major construction. The XD theatre seats are as easy to install as traditional theatre seats. The motion platforms are self-contained making them convenient enough to take on the road or fill an existing room.

Unparalleled acceleration

The XD Theatre seats boasts up to 2 G's of acceleration and a 400 movements/second thanks to our industry leading patented technology.

This is a huge step up from the limited 1 G standard that most platforms offer.

Wide Range of Application

The XD Theatre offers a greater advantage over other motion platforms. The XD can turn any existing movies into a thrilling experience since our motion technology provides more than just jolts and tilts.

The XD Theatre is available from 4 seats upwards and can be customised to suit your location.
