FIGHT IN 5 DIFFERENT SUPERNATURAL WORLDS

You'll see the world through the eyes of an insect. A realm beyond all your imagination exists in vast arid deserts, intricate city sewage systems, fields of entangled weeds, untamed jungles and an awesome underground Insect Empire... each amazingly beautiful yet equally dangerous. Don't become too enthralled by the mysterious beauty around you...any second your daydreaming could turn into a nightmare.

HUGE, THREATENING, STRONG... THE BOSS ENEMY

An enemy like you've never seen before! Half insect/half machine beings determined to conquer the entire world; their main target--human beings. Watch out! They'll overwhelm one-third of your screen and attack you in a variety of unspeakable ways.

CUNNING AND SPEED WILL INCREASE YOUR WEAPON POWER

At first you are too weak to match up against the ferocious enemy, but shot insects might drop special items that, if caught, will increase your weapon power. Sometimes you may find a can of insecticide or a net. With this added power you'll feel brave for a while, but at the end of each world awaits a supreme Insect Boss who will emerge to try to conquer you.

Remember...do not underestimate the insect's reality. Its powerful existence cannot be understood so easily by a mere human mind.
