Product Synopsis

An exciting snowmobile racing simulation where you can race cool Yamaha sleds on authentic tracks around the world. As you gain experience, you can upgrade your snowmobile and unlock higher-end sleds and courses.

Game Features

- Real Yamaha snowmobiles, excellently modeled, that take damage to five critical systems, and can be raced on numerous international tracks creates a fun, realistic experience
- Fully animated riders lean, duck and pull back, and even fall off from leaning too far forward or back in a jump!
- Variable weather, time of day, and animated objects, like helicopters and gondolas, add to the immersive environment
- Eight worldwide racing circuits, including: Nagano, Japan, Aspen, Colorado, and Munich, Germany offers diverse scenery, track conditions, and challenges
- Numerous modes such as hill climbing and head-to-head offer diverse challenges and extensive replay value
- Upgrade your snowmobile by winning races, performing tricks and buying new parts
- Complete the 500cc and 600cc championship modes to unlock the 700cc tracks and sleds for faster action
- Track editor/creator adds personalization and replay value
