

Virtua **VR** Racing™

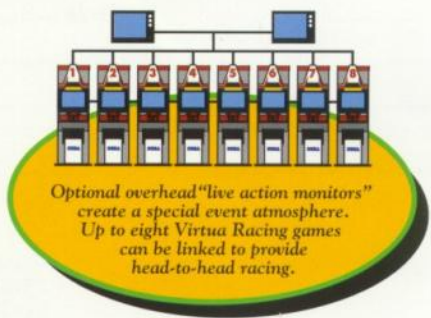

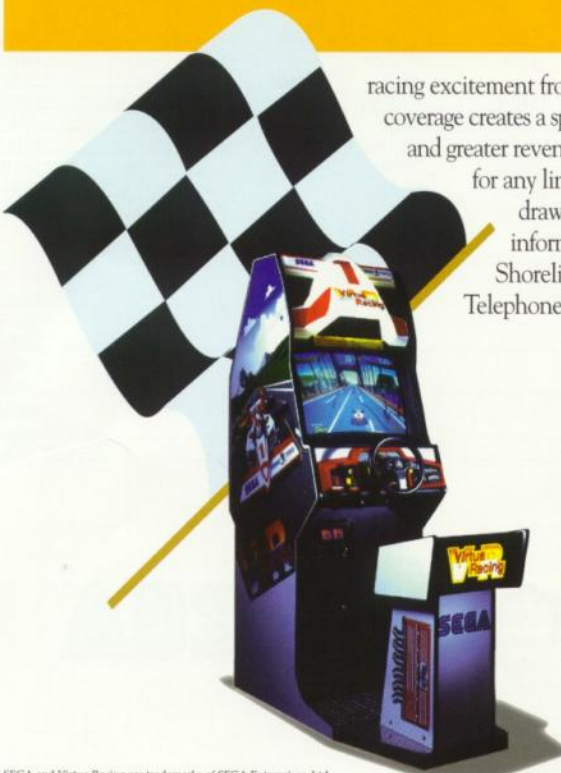

Meet the Virtua Racing™ Upright. It may be the smallest of the three Virtua Racing models, but it's right there with its two big brothers, Virtua Racing Deluxe and Virtua Racing

Twin, in coin-pulling power. * Since its introduction, Virtua Racing has been the hottest game on the floor. Now, with the Virtua Racing Upright, things are going to get even hotter. * While we made the upright smaller, we didn't omit any of the features that have put Virtua Racing at the top of the charts. Features like the incredible

Virtua Racing now comes in small, medium, & "Stand Back"

polygon graphics that create images that rival reality, realistic reactive steering, a butterfly shifter, a set of "Virtua Perspective" buttons that provide a choice of four different views of racing action, an accelerator, and a brake pedal. A 26-inch, high resolution monitor creates the visual realism and video overlays report lap times, standings, speed, and difficulty level. * Like its predecessors, the Virtua Racing Upright can be linked with other Virtua Racing models to create competitive real time, head-to-head racing. Any combination of Virtua Racing Deluxe, Twin, or Upright games can be linked to a total of up to eight players. * Optional

"live action monitors" broadcast the racing excitement from fixed locations throughout the race course. This live coverage creates a special event atmosphere that results in increased play and greater revenue. These "live action monitors" are an absolute must for any linked cabinet configuration because of their crowd-drawing power. * Call or write us today for more information. * SEGA Enterprises, Inc. (USA), 275 Shoreline Drive, Suite 201, Redwood City, CA 94065. Telephone: (415) 802-3100, Fax: (415) 802-3120.

Optional overhead "live action monitors" create a special event atmosphere. Up to eight Virtua Racing games can be linked to provide head-to-head racing.
