- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

## **OPERATING PRECAUTIONS**

- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.

After selecting Exhibition from the main menu, you need to select the type of match you wish to compete in. See Game Modes & Match Styles on page 10 for details on the various modes.

## SELECTING WRESTLERS

After selecting the number of players and the match type, it's time to select your wrestler. Use the **DIRECTIONAL BUTTONS** to scroll to the desired wrestler and press the **A BUTTON** to select or press the **R TRIGGER** to have the computer randomly select. Depending on the match type, you'll select the wrestler you want to control, those the computer will control or have random ones assigned. In Career mode, you select a wrestler (2 in Tag Career) to guide through an entire season. In all other matches, Player 1 selects CPU wrestlers. If you've created and saved any wrestlers in Create a Wrestler (see page 20 for details), you can load them for use in any game mode.

## OPTIONS

Once you've selected your match and wrestler(s) you can select **START GAME** to begin wrestling, or set your options. Available options change depending on the type of mode and match you select.

### MATCH OPTIONS

**Deathmatch** Make weapons available during your selected match, and no count out.

**Cage Match** Battles within the confines of a steel cage.

**Last Man Standing** Once an opponent gets knocked down, a counter will count down from 10. If the number reaches 1 before the wrestler stands back up, he loses.

**Toughman Match** This option is for the 2 on 1 and 3 on 1 game modes. If toughman is ON, the disadvantaged wrestlers must pin all of his opponents, not just one.

**Streetfight** This allows players to be pinned inside or outside the ring.

**Barbed wire** The ropes are replaced with razor-sharp barbed wire.

## WIN MODIFIERS

**Iron Man Match:** The winner of the selected match is the player with the most pins within a specific match length.

**I Quit Match:** A player can only win by forcing the opponent to submit.

## GAME MODES & MATCH STYLES

Hardcore Revolution™ offers an incredible array of wrestling modes and match styles.

### EXHIBITION

An exhibition match is a single match of any type. Exhibition matches don't count in the standings. It's just a friendly way to give someone a beating, or to take one if you haven't perfected your skills. Use Exhibition mode to master your play before taking on the rigors of a full Career.

## CAREER MODE

This mode is for the real ECW wrestling fan, the kind of player who's not satisfied with simply stomping a few strangers and calling it a day. In this mode, you go through an entire season, touring the fabled cities of America and handing out hardship to anyone who takes you on. By the time you've played through the Career Mode, you're among the elite who can beat just about anybody! After you've beat the CPU a few times, invite your friends over for a whipping, because a Career Mode can be played with up to 4 human players.

### About Career Mode

You begin at the bottom, an untested rookie ranked 20th. As you prove yourself and begin to move up in rank you can start to show your stuff against better name wrestlers. As you tour around, eventually you'll end up on televised matches. Ultimately, your skilled wrestler will be eligible to compete in the coveted Pay-Per-View events, where you have a chance to prove yourself before the most devoted—and demanding—fans in the world. PPV matches include fan favorites like Hardcore Heaven, Guilty as Charged, Living Dangerously, Heatwave, Anarchy Rulz, and November 2 Remember.

Once you're ranked #1, your next PPV match will be for the Acclaim Hardcore Championship belt. If you win the belt, you'll keep your #1 ranking, and then have to defend your belt to prove you're not a paper champion. 5 successful title defenses will do the trick. You will then enter into the bottom (#15 ranking) of the TV Title competition, where reaching a #1 ranking insures you a chance at the Television Championship. Say you've earned the first two titles. Feeling pretty good, starting to believe you can beat anybody right? Well take a breather, brother, because you've got to start another round of competition if you want to prove you've got what it takes to win wrestling's top honor, the ECW World Heavyweight Champion! Think you can take all three? Good luck!

## Career Matches

The ECW tour moves from city to city all across this great land of ours, bringing joy and seriously disturbing entertainment to all. Most of these matches could only be enjoyed live and in person—until now! These matches are worth 1 ranking point. Of course, every Friday some ECW matches are televised on TNN, and there are special PPV events.

**PAY-PER-VIEW:** This is a special televised event. These matches have the most flash and include Wrestler Intros. It's a real chance to shine and build up a following.

**LIVING DANGEROUSLY™:** Compete against fellow wrestlers in a grueling specialty match. This is an 8 man tournament. This particular event doesn't end until you either lose 1 of the 3 matches or win all 3.

**ANARCHY RULZ™:** Random match types include: Deathmatch, 3 Way Dance, 2 on 1, Tag Team, Elimination Style matches, etc.

**GUILTY AS CHARGED™:** 3 wrestlers join your regular wrestler, creating a 4 man team to fight against an opposing 4 man team. If your team wins, your wrestler moves up in rank, even if your wrestler was pinned during the match.

**HARDCORE HEAVEN™:** This is a Barbed Wire or Cage match, so someone's bound to suffer!

**NOVEMBER 2 REMEMBER™:** This is a regular match. It is only played when a player is attempting to win the Heavyweight belt.

**HEATWAVE™:** Now this is ugly: a mad mix of modes where anything can happen.

## The Multiplayer Career

In a multiplayer version, there is an initial Elimination Style 4 Way Dance match to place players in slots from 20th – 17th for 4 players (the winner is ranked 17th). After that, each player in rank order fights a match against a randomly selected CPU or human player. Losers are deducted 1 rank and winners are advanced 1 rank. Ties will be resolved during the TNN shows on Fridays. TNN matches are always 4 Way Dance matches. When a player is ranked 1st he/she must fight in a match versus the other human players to prove why he/she is the number 1 contender. If you win, you will have the chance to take on the multiplayer career champion for the ECW Heavyweight Championship belt. If that #1 ranked player loses, the player's ranking is reduced by 1. All other players advance 1 rank.

## Tag Team Career

The Tag Team Career is similar to the regular career mode, except all matches are tag matches, as your team battles to gain the Tag Team Championship belt. This match can be played with the players on the same team (Tag Career Co-Op) or on separate teams (Tag Team Comp).

## MATCH STYLES

There are two basic match styles: **Normal** and **Elimination Style**. In a Normal match, you win when you beat your first opponent, while in an Elimination Style match you must beat all your opponents to triumph.

## NORMAL MATCHES

### VERSUS

This is the classic 1 on 1 match. Each player selects 1 wrestler and they face off. The match continues until the rules set up by the player have been satisfied.

## TAG TEAM

Tag team is a match that requires 4 wrestlers. Under regular rules this match would end as soon as a legal wrestler has been pinned. Two wrestlers are outside of the ring standing on the apron kitty corner from each other. It is a 2 man team with only 1 man being able to stay in the ring legally. The illegal wrestler has to stay outside on the apron until he is tagged. Once the legal man tags the illegal man, their positions switch.

The illegal man can enter the ring, but only for a count of 5 seconds. When the 5 seconds are up, the illegal man must then exit the ring and stay back in his team's corner. This time meter will slowly fill back up to 5 seconds.

**NOTE:** Once a player is tagged out, that wrestler must remain outside the ring for approximately 10 seconds, during which time he or she cannot be controlled.

**To tag a teammate:** Flick the **ANALOG THUMB PAD** to focus on your teammate, then press the Tie Up button (**B BUTTON**) to tag.

**To call in a teammate:** HOLD **BLOCK** + TAP **DODGE** to call in your teammate.

## TORNADO

This mode features 4 wrestlers in the ring at once in a 2-on-2 match without tag team rules. The match ends when both people on one team have been eliminated. When one person is eliminated, the match becomes a 2-on-1 handicap match. The eliminated player can continue to wrestle outside of the ring on the floor, so beware!

### 1 ON 2

In this mode, two players face off against a single foe. The individual wrestler must fend for himself while the other two wrestlers are free to pummel at will. The teamed wrestlers are free to attack the single wrestler as much as they like and are not restricted to a tag format. Under normal circumstances, the match will end when a wrestler from 1 team has pinned a wrestler on the other team. The disadvantaged wrestler doesn't need to pin both wrestlers.

### 1 ON 3

If 2 on 1 is too easy for you, try 3 on 1! The rules are the same, but the odds are much worse!

## **LUMBERJACK**

In this mode, two players face off in the ring. There is a catch, however. Outside the ring are two CPU controlled wrestlers eager to pound any poor, unsuspecting wrestler who finds himself outside of the ring.

Select your wrestlers, then choose two CPU lumberjack players who stay outside the ring on opposite sides. The CPU wrestlers outside the ring do not interact in any way with the wrestlers inside the ring—as long as the in-ring wrestlers remain inside the ring and are careful not to find themselves within grabbing distance of either CPU wrestler outside the ring! Once the wrestlers inside the ring wander outside it, they'd better have their affairs in order!

## **3 WAY DANCE**

Three wrestlers compete in this match. Once a person has been eliminated, the match is over and the victory goes to the person who pinned or submitted the eliminated person.

## **BATTLE ROYAL**

The rules for Battle Royal are exactly the same as the rules for Elimination Style Battle Royal with the following exceptions: all four players start in the ring at the same time and there are only four wrestlers. The match ends when there is only 1 wrestler left in the ring.

# **ELIMINATION STYLE MATCHES**

## **VS**

In this mode, two players face off in the ring, but one opponent has a big advantage: one player is able to select a four man team! The player with a one man team must defeat all members of the other team. In a one player Vs. elimination, the user fights a CPU one-on-one until the CPU gets eliminated. Once the user has eliminated his opponent, another wrestler appears that the user must fight. This continues until the user has successfully beaten four CPU opponents.

## **TAG TEAM**

This mode is similar to a regular Vs. mode, but with a teammate. In this mode, the player and his/her teammate fight a teamed-opponent. As the enemy wrestlers are eliminated they are replaced with fresh teammates until all four wrestlers on the

enemy team have been eliminated. If both the player and his/her teammate are defeated before they defeat the enemy wrestlers, the match is over. Tag Team rules apply.

### **8 MAN TAG**

This is a Tag Team Marathon Match with two teams. Each team has four wrestlers and it's a fight to the finish. However, each team has his/her tag partner and two other teammates waiting in the wings. Whenever a wrestler is eliminated, they are replaced with the tag partner on the apron and a teammate waiting in the wings comes in to become the new tag partner. The match ends when there is only one team left.

### **4 WAY DANCE**

There are four wrestlers in the ring at once in a free-for-all style. The match ends when there is only one wrestler left. Once a wrestler has been eliminated, he/she is forced outside of the ring. Elimination is by submission or pinfall.

### **3 WAY DANCE**

This type of match is very similar to a Vs. match. Three people are in the ring at once in a free-for-all-format. The match ends after two wrestlers have been eliminated. The winner is the wrestler that didn't get eliminated.

### **STABLE MATCH**

Same as 4 Way Dance only each player has a team of four wrestlers. When a player gets pinned, his/her wrestler leaves and a new one comes out until all his/her wrestlers are eliminated. The match ends when there is only one wrestler left in the ring and all of the other teams' wrestlers have been eliminated. Also, the last member of each team is allowed to remain outside the ring and fight with any other wrestlers outside the ring or wrestlers that he/she drags from inside the ring to outside the ring.

### **BATTLE ROYAL**

The Battle Royal is among the wildest spectacles in wrestling, a straight ahead, free-for-all with no pins, no submissions, and no count outs! You can't even leave the ring and fight outside. It starts out with two wrestlers grappling in the ring, with another wrestler entering every 30 seconds. This continues until four wrestlers are in the ring at once. You eliminate opponents by throwing them over the top rope. Once a wrestler is eliminated, another fills that spot until all 30 wrestlers have been in the ring. When the Battle is over, a

stat screen will come up showing how many times you eliminated someone, how many times you were eliminated, and how much in-ring time you had. The winner is the last man in the ring. The Battle Royal also lets you select wrestlers for all 30 wrestler slots if you want.

## Some Specialty Match Types

In Hardcore Revolution™, you'll come across some truly brutal match types, which can show up at any time. You can turn on Hardcore and Cage matches in the Match Options. Here's a taste of what to expect, besides a lot of yelling and whimpering.

### BARBED WIRE MATCH

We've replaced the usual ring ropes with razor-sharp barbed wire! Yep, those strands of barbed wire are real and they can sure give you something to write home from the hospital about!

### STEEL CAGE MATCH

The winner is the first wrestler to climb out of the cage, usually leaving a helplessly beaten opponent lying on the mat below. If you think you can climb out to safety before your opponent is down, you'll soon have that faith shaken, friend, along with every bone in your body! The player can turn the Steel Cage on in the options before starting a match.

### DEATHMATCH

In a Deathmatch, you can forget about fine points and concentrate on fire power! Just about any object can be used to punish your opponent. Your opponent will be hoping to treat you to a weapon-enhanced beating, too, so be prepared to hurt! Weapons are turned on by selecting a Deathmatch or Last Man Standing match.

# TOURNAMENT

In this mode, the wrestlers face off in regular Vs. matches in a playoff-style tournament. If a player wins, he/she advances to the next tier. The mode is complete when there is only 1 wrestler left. On the options screen before each match, you can choose to simulate the upcoming match. If you choose simulation, you may then choose View Match or Sim Winner. Simulating a match will return the player to the tournament screen, with the winner advancing. Up to 8 human players can compete in Tournament play. Player 1 will select all of the wrestlers. All players will wrestle using controllers 1 and 2.

# PAY-PER-VIEW

NOTE: Pay-Per-View requires a memory card (sold separately).

Want to re-live some of greatest wrestling matches ever broadcasted? Ever wanted to create the perfect wrestling card? "Create your Own Pay-Per-View" mode is for you! ## RANDOM

Choose **Random** to have the computer generate a custom wrestler for you.

## CLEAR

Get rid of that clunky custom freak and make a better one.

## NAME

Give your Colossus a fitting fighting first and last name, and an awesome alias as well.

## ATTRIBUTES

You assign your creation varying degrees of six attributes (from 1 to 10), with the total equal to 36. Common sense suggests you create a wrestler with balanced attributes, heavier in some areas, lighter in others, but have fun experimenting by creating creatures with, say, plenty of strength but no endurance, or lots of recovery

but no speed. You're sure to find their resulting performance entertaining! The attributes are:

**STRENGTH** Affects damage you deliver

**TOUGHNESS** Makes you less vulnerable to low damage attacks like punches and kicks.

**SPEED** Impacts walks, blocks, dodges, climbing the Turnbuckle and Cage.

**RECOVERY** Initial recovery value is lower, plus it lowers your chance of getting stunned.

**CHARISMA** Charisma affects your crowd support, which can have a big impact on the damage you do.

**MAT SKILLS** Affects your ability to pull off moves.

## MOVES

You can choose which moves you want your custom wrestler to have in particular situations and there are plenty of moves to choose from. You can use a full set of moves from one of the ECW wrestlers, or use Edit to create your own custom set of moves from the entire Hardcore Revolution repertoire.

**To Edit a Move Set:** Move the highlight to a desired move type and press the **A BUTTON** to bring up the moves list for that move type. Controls for each move appear in a window to the right of the move name.

**To Change Move Controls:** Highlight the Buttons window and press the **A BUTTON** to view the possible button combinations available for that move. Scroll to the desired button and press the **A BUTTON** to select it, or the **B BUTTON** to go back without changing.

**Note that moves are listed by the amount of damage they do, and that each move uses a certain percentage of space in your move set. Your move set can not exceed 100%.**

## PERSONALITY

Your new problem child will need to borrow some characteristics from existing wrestlers. You can use the crowd reaction, fighting style, theme song, entrance, run-in partner, and voice/grunts of any ECW rascal.

## MEMORY CARD

Access your memory card to Load, Save or Delete a created wrestler.

## CLEAR WRESTLER

Back to the drawing board. Clear any unsaved Create-A-Wrestler data and restore default settings.

## UTILITIES

Utilities offers a host of gaming options. The main utilities screen offers you these choices:

**SAVE OPTIONS:** Access your memory card to save option settings and any cheats you've earned.

**DIFFICULTY:** Select among Easy, Medium and Hard skill settings.

**INTROS:** Choose to play with or without the ECW wrestler intros.

**RECOVERY:** Wrestlers will regain health during a match (ON) or not (OFF).

**STEREO:** Play with Stereo or Mono sound.

**FX VOLUME:** Turn sound effects OFF, or choose among Low, Medium and High settings.

**MUSIC VOLUME:** Turn the music OFF, or choose among Low, Medium and High settings.

**LANGUAGE:** Choose MATURE or EVERYONE. Which setting is truly HARDCORE?

**NAME METER:** Choose to have the wrestler's name appear (ON) or not (OFF) or to act as a HEALTH METER .

**DAMAGE METER:** Turn this meter ON or OFF.

**TIEUP METER:** Turn this meter ON or OFF.

**HEALTH METER:** Turn this meter ON or OFF.

**BLOOD:** Play with festive blood (ON) or don't (OFF).
