# Game Story

It has been four years since Jason's encounter with the Plutonium Boss and the radioactive mutants under the Earth. His only reminder of the incident is S.O.P.H.I.A., the vehicle he used to stop them, which he has hidden in an abandoned barn.

During a ferocious thunder storm late one night, Jason was awakened to find lightning bolts striking the ground near the barn. After watching the lightning for some time he saw it transform into a horrible being. Another bolt of lightning struck the house and caused the ceiling to crumble, knocking Jason unconscious.

When Jason woke up, S.O.P.H.I.A. was in pieces and the parts he had collected from his first dealings with the Mutant Bosses were missing.

Little does Jason know that there are more lightning beings where the first one came from and they are planning to destroy the Earth. The beings started digging towards the Earth's core in order to shift the planet's weight off its axis, leading to total annihilation. The parts from S.O.P.H.I.A. are being used to create a robotic army to assist the beings in accomplishing their mission.

Now, Jason must stop them, but he won't make it without the help of S.O.P.H.I.A. Since he can't recover the parts, he decided to redesign it to better prepare himself for the ordeal facing him. After 29 days, S.O.P.H.I.A. was completely rebuilt and ready for battle. Remembering where he saw the being's footsteps, Jason jumped in his vehicle and headed towards the mountains where the challenge begins.

# How To Play

This game is based on the 1988 NES game Blaster Master. Once again, Jason must fight his way through eight levels of radioactive mutants.

You must accomplish five tasks in the following order to complete each level:

1. Find the lair of the Mini Boss.

2. Defeat the Mini Boss in its lair.

The Mini Boss will leave behind an option or weapon for Jason to pick up.

3. Use the newly attained option or weapon to locate the Main Boss.

4. Defeat the Main Boss in its lair.

The Main Boss will leave behind an option or weapon for Jason to pick up.

5. Use the newly attained option or weapon to locate the level exit.

All the while you will encounter radioactive mutants that will attempt to destroy you.

There are four types of game play. At times, Jason will be inside the vehicle, seen from the side-view or an overhead view. In the overhead view mode, there may be hidden passages which the vehicle can pass through. Small doorways and ladders indicate where Jason must leave the vehicle and is seen on foot from a side-view. When Jason enters inner rooms he is seen in a larger side-view. Not all of the doorways can be entered.

# How To Play *(continued)*

The Menu Screen allows you to monitor how many weapons you have earned and used. You will also choose the weapon to use against the mutants in this screen.

In order to stay alive, you must maintain your energy gauge, shown at the bottom of the screen. Catching hearts will increase your energy and sustain your life.

Blaster Master 2 is a one player game. No scoring is provided.
