EPILEPSY WARNING
WARNING: READ BEFORE USING YOUR
SEGA VIDEO GAME SYSTEM

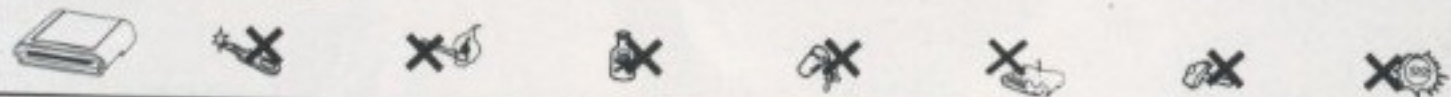

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game: dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions, IMMEDIATELY discontinue use and consult your physician before resuming play.

STARTING UP

1. Set up your Sega Game Gear System as described in its instruction manual. 2. Make sure the power switch is OFF. Then insert the Sega cartridge into the Game Gear unit. 3. Turn the power switch ON. In a few moments, the Title screen appears. 4. If the Title screen doesn't appear, turn the power switch OFF. Make sure your system is set up correctly and the cartridge is properly inserted. Then turn the power switch ON again. **Important:** Always make sure that the power switch is turned OFF when inserting or removing the Sega Cartridge.

HANDLING YOUR CARTRIDGE

- This Cartridge is intended exclusively for the Sega™ Game Gear™ System.
- Do not bend it, crush it, or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional recess during extended play, to rest yourself and the Sega cartridge.

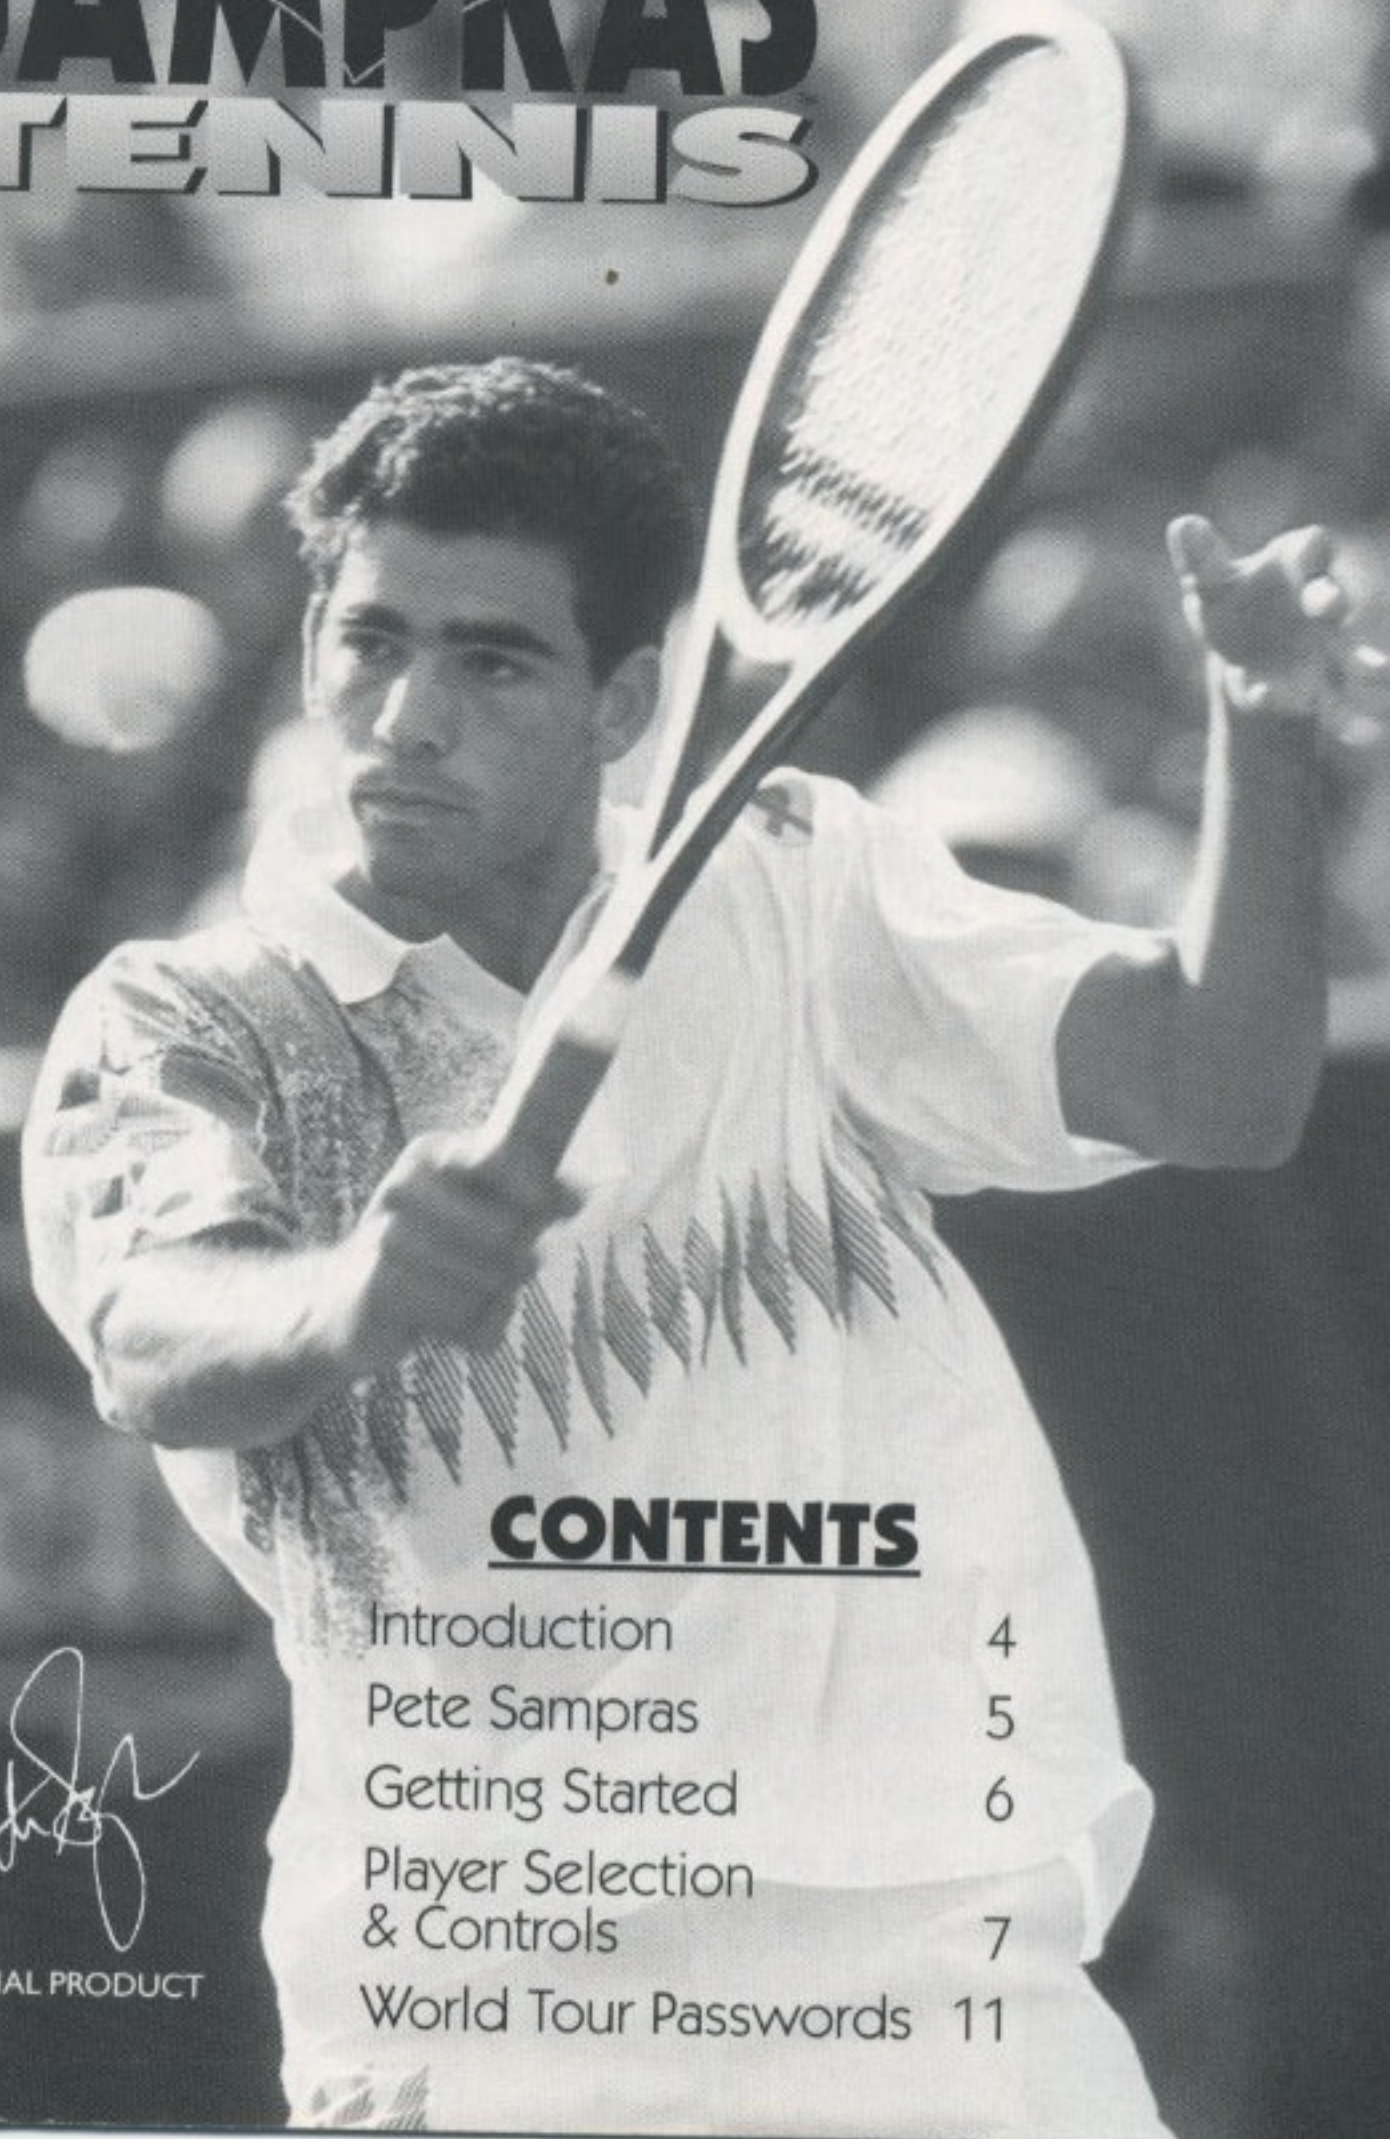

LINK UP

To play the link games you will need two Game Gears, two copies of Pete Sampras Tennis, and a Gear to Gear cable. With both Game Gears turned OFF, connect one end of the cable into the extension socket of one Game Gear and the other end into the extension socket of the other Game Gear. Insert both game cartridges and switch on. If everything is working, you will see the message "LINKED" on the options page underneath "TOURNAMENT".

This official seal is your assurance that this product meets the highest quality standards of Sega™. Buy games and accessories with this seal to be sure that they are compatible with the SEGA™ GAME GEAR™ SYSTEM.

INTRODUCTION

Action, speed and thrills abound in the best tennis game on the circuit. Choose the championship you want, and go for it! Play as Pete Sampras, World No.1, or take him on in a challenge game. Is baseline your style? Or maybe it's net play? Could it be hard and fast concrete court action? Hone your skills, and then try winning with a lower ranked player, it'll make you sweat! Get your friends to play, up to two in challenge matches with a maximum of eight competing in the Tournament mode! On clay, grass or concrete anywhere in the world it's big... very big. You can even name your own player, take him on tour and climb the rankings to claim the coveted World No.1 slot. Grab your racquet, don your sweat-band and get out there!!!

PETE SAMPRAS

Born on August 12th, 1971 in Washington D.C., lives in Tampa.

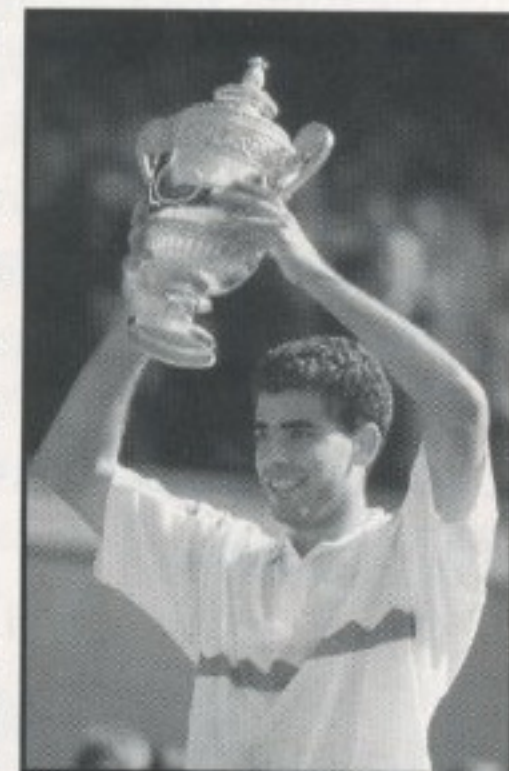

1994 Currently Number One in the world in men's tennis and 1994 Wimbledon Champion. First player to take three Grand Slams in a row since 1969 (1993 Wimbledon, the 1993 U.S. Open and the 1994 Australian Open).

1993 Finished Number One in the world, only the fourth American to achieve the rank. Won Wimbledon and the U.S. Open. Earned a career-high total of eight titles. Slammed 1,011 aces, an ATP Tour season record. Only player in the last two years to post consecutive 70 match win seasons. Compiled a Tour best 83-15 match record. Achieved a Tour best 19 match winning streak. Earned a record \$3,648,075, the most in a single season.

1992 First 70 match win season (70-18). Won five titles in seven finals. Helped the U.S. to a Davis cup title, winning five set doubles matches with John McEnroe in the semifinals and finals.

1991 IBM/ATP World Champion

1990 Won the U.S. Open, the youngest men's champion at age 19 years, 28 days, upsetting Lendl, McEnroe and Agassi. Earned his first Tour title in Philadelphia. Broke into the Top Ten.

GETTING STARTED

On the title screen, highlight the option you require using up and down on the joypad. Pressing the 1 button will select it. The options are as follows:

CHALLENGE

This is a single match for up to 2 players. Compete anywhere in the world against your friends or the computer. Play either a doubles or a singles match. If 2 Game Gears are linked, the action takes place on each person's individual screen.

TOURNAMENT

If you are using only 1 Game Gear, then the computer selects the other 7 people who compete in the Tournament. If 2 Game Gears are linked, then up to 8 individual people can take part. Each person selects their player and enters his or her name. If there are not 8 human players then the remaining ones will be computer controlled. The first draw is made and each person plays their match and the winners proceed to the next stage until the final where the ultimate champion is decided.

WORLD TOUR

Play a match at all the famous venues in the world against some of the greatest players. It all starts very easy but soon becomes exceedingly tricky. After you win each match you are given a password. Use this to re-start the game at any time where you last left off. This option is not available in "LINK" mode. Available for 1-4 players taking turns.

PLAYER SELECTION

Each player can choose who they want to be. Use left and right on the joypad to scroll the players through the selection box and button 1 to pick them. If the players do not become highlighted when in the selection box then they have already been chosen by another player. After you have chosen your player then you may enter your name if you wish to.

Each computer player has its own skill level denoted by their seed. The further to the right of the men or to the left of the women the player is in the selection bar, the more skilful and therefore harder to beat the player is.

2 PLAYERS on 1 GAME GEAR

This is a special mode where 2 people can play together on 1 Game Gear. Select challenge mode and now choose "2 ON 1". Pick each player as usual. The computer controls any player direction i.e. up, down, left or right. The player decides how to serve and when to hit or dive for the ball. The controls are as follows:

Player	Manual Serve	Auto Serve
1	Button 1	Button 2
2	Left or Up+Left or Up	Right or Down+Right or Down

Player	Hit	Dive
1	Button 1	Button 2
2	Left or Up+Left or Up	Right or Down+Right or Down

CONTROLS

For the best gameplay, learn the different joypad functions before you start.

PLAYER MOVEMENT:

Up, down, left and right on the joypad moves the player in the corresponding direction.

WHEN SERVING:

2 Button

Automatic serve. The computer will serve for you, but make sure you're standing in the right place.

1 Button

Manual serve. Press once to throw the ball into the air (at this point after-touch can be added by pressing up, down, left or right) and press "1" a second time to hit it.

DURING PLAY:

2 Button

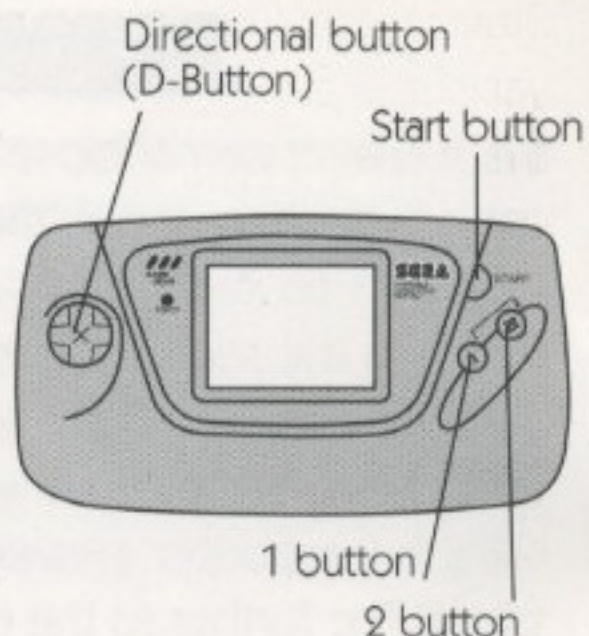

Performs a lob shot.

1 Button

Press for a normal shot

2 Button

With either left or right pressed on the joypad, will make the player dive in that direction.

Start Button During the game press to pause the action. At this point various options are presented on screen. Hit the 1 button to show the game statistics, the 2 button to display an action replay at normal speed and then button 2 to run the replay in slow motion. Press start again to go back to the game. Pressing both buttons and start at any time will return the game to the main title screen.

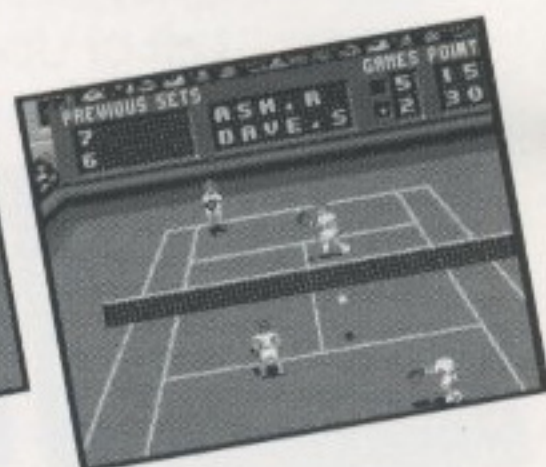

AFTER TOUCH:

During the time the player begins a swing and the ball making contact with the racquet, it is possible to affect the power and direction of the ball. By pressing and holding the joypad to the left or right, the ball will move more in that direction. The longer the pad is held, the more the ball will be affected.

In the case of power, the same principle applies but by using up and down on the joypad. Pressing and holding the joypad towards your opponent's side of the court will increase the power of the shot whilst pressing and holding it away from your opposition's half of the court will decrease the power.

To achieve maximum after touch swing as early as possible, likewise swinging later will only give you the opportunity to add a small effect.

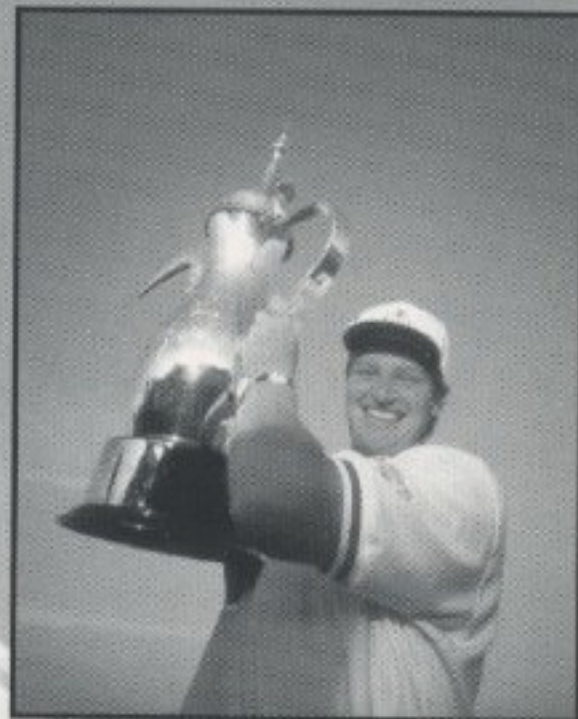

Any combination of joypad presses can be executed to create amazing shots. For instance if you're at the bottom of the screen by pressing down and to the left, a perfect dropshot moving to the left side of the court would be performed.

ERNIE ELS Golf™

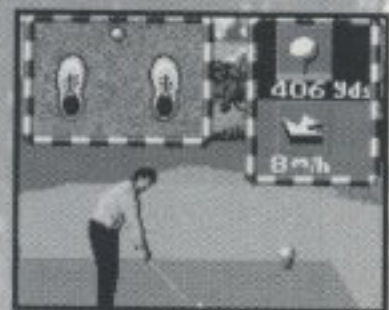

WITH A DRIVE AS POWERFUL AS A MISSILE, IT CAN ONLY BE ERNIE ELS

Ernie Els is golf's latest super star and has put himself on the map by winning the prestigious 1994 U.S. Open Championship at the age of 24. With his name on the trophies of 13 other championships, Els' 5-year professional career has made him one of the world's greatest golf players. Els is reckoned to have all the physical and mental attributes to be the next dominant player in the golf world and is famous for his powerful golf swing which, is said, could give an Exocet missile a run for its money!
