No squadron? No backup? No problem!

Your squadron is nowhere to be seen and you have no backup but the skies are yours to take! Bank low over the desert and unleash your artillery on swarms of enemy flyers. Blast away battalions of tanks and leave them as smoldering craters. Then strafe battleships and wreck carrier ships with your rockets in the open ocean. The longer you survive, the stronger you will get - this is your war now!

- Black Hawk cartridge for Genesis and PAL Mega Drive
- Reversible cartridge inlay sleeve
- Full-color instruction manual
- Individually numbered embellished slipcover
