

3rd Party Guidelines - Dreamcast File Specification

When Supplying Digital Files

All files going to print to should be supplied in the relevant Templates provide. If supplying in QXD format please place as many HEXACHROME VECTOR logos that is possible at that time. All other images should be supplied in RGB format ready for Hexachrome conversion at the repro house.

PLEASE NOTE:

We now supply a fifth colour (Pantone 660 CV) FREE for all Dreamcast Branded areas within Packaging Templates. This is to ensure consistent colour reproduction. Please do not alter the Quark Xpress files: supply as 4 colour plus 660 CV

In order to keep the information as clear and easy to use as possible, please supply the relevant files in folders as follows:

- 1 - Layout(s)
- 2 - Images / Logos
- 3 - Fonts
- 4 - PDF Proofs

Please supply a list of contents with any disk supplied.
