

Virtua Racing

TWIN TYPE

COMPETE WITH YOUR OPPONENTS
IN HEATED "VIRTUAL REALITY" RACING!

This, the fastest of racing machines, incorporates state-of-the-art mechanisms... the latest in CG technology allows SEGA to reproduce all the excitement and sensation one would expect to experience only in actual driving competition. "Virtua Racing" is a much talked about game that enables you to feel the realism of a simulated Formula car race through the medium of superreal graphics. In addition, it incorporates a communications function which permits real time racing with multiple players simultaneously participating in the game. Its really thrilling scenes are sure to attract customers not only to the machine, but also to the location in general.

Watching an on-the-spot telecast on the upper monitor lets the onlookers also join in the fun.

Employing the communications function adds further excitement!

- Enemy machines other than the competitors constantly vying for the lead gives the unit its air of genuineness.
- Features real time racing and prominently displayed finishing positions, and...
- A course which is selected by the majority of participants.

- Utilizes a communications function which allows up to 8 persons to compete simultaneously.
