WARNINGS Read Before Using Your Sega Dreamcast Video Game System

CAUTION

Anyone who uses the Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, **IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.**

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast CD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, scratch or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

PROJECTION TELEVISION WARNING

Still pictures or images may cause permanent picture tube damage or melt the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

GAME FLOW
1) Pick Up a Customer

Human characters located in the city with a "3" icon over their heads indicate potential customers waiting for a taxi ride. To pick up a customer the player must brake the cab to a complete stop within the stop zone - the circular outline that appears around the customer. The customer will then automatically approach and get in the cab.

NOTE: While waiting for the customer to get into the cab the game clock will continue to run but control of the cab is not possible.

2) Drive to the Destination

Once the customer gets in the cab the following 3 items appear on the game display: the "Destination and Balance Counter" appears briefly to the left, the "Destination Arrow" appears at the center top and the "Customer Time Limit" appears over the customer's head. It is your job to travel in the direction indicated by the arrow and deliver the customer to their destination before the customer time limit reaches 0. Provided you reach the destination in time, you will be paid the base fare as well as any tips given by the customer in appreciation of "crazy" driving (see "Fare System" and "Tips" p. 10).

3) Drop Off the Customer

To drop off the customer, brake the cab to a complete stop within the green wall rimmed destination stop zone. Once stopped, the customer will automatically exit the cab and pay their fare (see p. 10) plus any tips received.

NOTE: While waiting for the customer to get out of the cab the game clock will continue to run but control of the cab is not possible.

Do your best to repeat the above 3 steps as many times as possible before the game time counter reaches 0 to earn loads of crazy money!

ARCADE/ORIGINAL MODE

The different colors of each customer "S" icon indicate the relative distance to the destination while the size of the **stop zone** around the customer indicates the relative difficulty involved getting there.

S ICON COLOR VARIATIONS

FARE SYSTEM

Time Limits and the Total Earned Fare

After getting into the cab, a number appears over the customer's head and begins to countdown. This is the customer time limit. If you are able to deliver the customer to their destination within this time limit you will be paid the **FARE**. This is then added to the **TOTAL EARNED FARE**. However, if you are unable to reach the destination before the counter reaches 0, the customer will jump out of the cab without paying.

Fares and Tips The three types of fares that can be earned are as follows:

BASE FARE

The base fare is calculated according to the distance of the destination. Once the customer gets in the cab, this amount will appear in blue under the total earned fare at the upper right of the game display.

TIPS

Tips are awarded to the cabbie whenever "crazy" maneuvers are executed in the course of driving the customer to their destination. Each tip is added to the base fare as earned.

BONUS FARE

When the cabbie arrives at the customer's destination, a bonus fare is converted from any time left over from the initial customer time limit. This is added to the base fare just before payment.

ARCADE/ORIGINAL MODE

EARNING TIPS If the cabbie is able to "please" the customer by performing any of the following crazy manoeuvres while delivering the customer to their destination they will be rewarded monetarily with tips. All tips are added to the base fare and then to the total earned fare upon arrival at the destination.

CRAZY JUMP

Use jump ramps or other similar elevated obstacles to become airborne.

CRAZY DRIFT

Sustain a sliding drift of the cab while turning.

CRAZY THROUGH

Cut in close to the other vehicles that you pass on the roads without hitting them.

COMBOS

If you are able to earn tips in succession, a running tally of the number of combos appears on the right of the display and continues until you collide with another vehicle. The more combos accumulated, the higher the tip value becomes, so do your best to tank up consecutive combos whenever and wherever possible! If you make a mistake or collide with another vehicle, the combo counter resets to zero.

TIME BONUS

When the cabbie delivers the customer to their destination, any leftover time from the customer time limit is converted into a Time Bonus, which is then added to the game time. The faster the cabbie arrives at the destination, the higher the bonus time awarded will be. The available time bonuses are:

SPEEDY

+5 seconds
(Green)

NORMAL

+2 seconds
(Yellow)

SLOW

No Bonus
(Red)

BAD

Appears when the customer jumps out of the cab without paying (Purple)

NOTE: Time Bonuses are only available in the "PLAY BY ARCADE RULES" of the arcade and original modes.

This wild one is known to have a hot and quick temper. His only reason for becoming a taxi cab driver is that he considers being a cabbie the "coolest" profession. Axel always drives his taxi with a good time while driving. He will not tolerate any passengers who are at the wheel. He'll just take driving of their vehicle back.

When he isn't working, Axel is usually trying to catch-up on his gym, jamming with his buddies and going out to parties or participating in social sports like football or basketball. The said character has a great sense of humor. He is always looking for fun and likes to go on a "crazy" case, and sometimes his such interests affect his relationships with women. He will "teach a girl a lesson" while he isn't perfect, his carefree personality and naturally cheerful nature means he kind of gross on you. His most redeeming quality is that he is especially good at making his customer have a sense of having fun, no matter how busy he is.

If Gena could be described in two words, without a doubt those words would be "cool & sexy". With a strong passion for cars, her reason for becoming a taxi driver is simple. "Because I get to drive around in my car all day". While she's not so concerned with angaging her customers per se, she sure is trendy. What's asked if she'd be happy to a taxi cab driver she just laughs and replies. "But it is such a rush to drive through the traffic-laden streets. I could never give that up".

When Gena is not working in her beloved job, she can usually be found looking on it. In fact, she spends nearly all her time and money purchasing extensive tune-ups, maintenance and cleaning. It is no surprise that most of the money she earns goes straight into her cab.

Despite her job fixation, men are attracted to Gena's beauty. But she simply turns her head so at any man who dares try to woo her. Clearly the sole object of her affection is her one and only cab!

CABBIES

Always friendly & cheerful... that's B.D. Joe. For him, driving a cab is a line of work in which he can "make people happy." Happiest when he can bring a smile to the face of a customer, B.D. is a master of both driving and conversational techniques. Even when not driving his cab B.D. Joe is well known as an accomplished performance artist. He can, three together some licks and drum sets, and using a pair of drumsticks, can blow you away with his musical prowess. His talents sound so fine they put the "professionals" musicians to shame. His talent is such that he is often asked why he doesn't perform professionally. But he just laughs and says, "Making people who is needed enough for me besides driving is too much fun to give up!"

Lately B. D. Joe has taken up card tricks... why you may ask? Because to him to be seen skate isn't worth the effort, anymore.

Gus is a handsome (in a male-friendly sort of way) cabbie who "likes the term 'cool'." He holds the unique distinction of being the proprietor of the "cranky" drive. In his youth, Gus was a well-kept, sophisticated, handsome, tallish to a fault, the kind to buy and always had to go it all up and all cost. With a single fascination for all things new, Gus was naturally drawn to that one unique trend that was totally cool. With a knack for getting into something before it became popular, in the days when he didn't even own a car he was using it a normal tax when he had a taste of innovation and bought an old grand old 1960 jalopy. Thus began the busy taxi trend.

When the sporting day finds he messes with his poker buddies (whose members change nightly) to while away the time playing poker, blackjack and roulette. A benefit of his gambles is that Gus has come to understand the ways of winning. Besides mastering his former skills to win at all costs, learning the why and how of losing has made Gus a better person.
