

GHOST SQUAD DELUXE

MANUFACTURED BY: SEGA
2 PLAYER

JOIN THE SQUAD!

Ghosts Squad Deluxe's gun is intended to function realistically: it features a working fire selector switch, a stock, force-feedback recoil, and iron sights. To ensure that the light gun fires accurately, a 20-second "Calibration" mode is provided in which the game adjusts for any jostling or damage to the rifle's light-emitting components.

Ghost Squad Deluxe
