SPARES AND SUPPORT

ABOUT | MANAGEMENT

Formed in 2007, Sega Total Solutions constantly strive to make sure that all of our customers receive the very best service in spares supplies, components and technical support. Our aim is to make sure that we offer our customers a one stop contact for all their operating needs. As both our domestic and international customer base has increased throughout 2012, we firmly believe that we are on the right track.

Who else can offer spares and components from leading international brands such as Sega, ICE, Triotech, Andamiro, Komuse, Simuline, Intermatic and Innovative Foto (Fantasy) !

In 2012, STS introduced the Sega Change Machine along with an excellent range of Redemption Tickets, both bespoke and generic. We further introduced a number of LCD enhancement kits for Sega Video Games, along with an ever increasing number of 3rd party spares. Most of all we realise that it is important that we continue to listen to you, our valued customer and, with this in mind, we are currently working on new ideas for the coming year to improve our service even further.

Our technical department has very quickly become renowned as the most helpful in the industry, and this past year we have greatly increased the number of test rigs used for component and board repairs which will help to keep us “ahead of the game”, as far as customer satisfaction is concerned.

Thank you for your past, and continued, support and you can rest assured that the aims of STS are customer satisfaction guaranteed.

PREVIOUSLY OWNED

SINCE 2008

In October 2008, Sega Amusements Europe took the decision to sell direct within the UK, which has enabled us to develop a supply chain of previously owned games. We have assembled a highly skilled and very experienced team of technicians, solely dedicated to achieving the highest standards in refurbishing machines allowing us to offer a wide range of video games, simulators, redemption and novelty machines to any market throughout the world. We understand that it is a false economy to supply our customer with anything other than the very best quality possible and this division prides itself on the work it produces.

All machines, once refurbished, are given our official seal of approval. The 'Sega Assured' stamp proves that the machine has been through extensive testing and has passed our rigorous and strict assessment procedures.

A full list of games available can be found at www.segaarcade.com. We also distribute a full list by e-mail on a regular basis. To have your email address added to our database, please send a request to sales@segaarcade.com
