

IT'S ONE JUMP AHEAD OF
THE OTHERS!

FROGS

Game Action: Always Hop- ping

Make the frog jump to catch as many insects as possible during game time. A single joystick control allows you to position the frog on his lily pad for the best possible shots. But watch out! If the frog lands in the water, you lose precious time until he reappears. Skillfully control the frog's tongue to snare as many targets as possible.

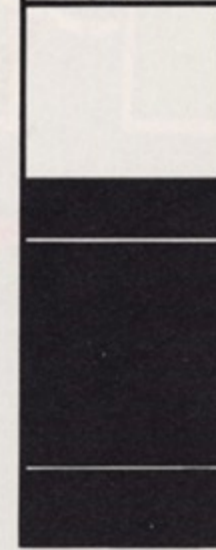

Free Play Option:

During the last few seconds of play, a dragonfly appears. If you catch the dragonfly, you win a FREE game! But it's not easy! Just when you think you've got him, he may dart out of range! All players have a good chance for this BONUS!

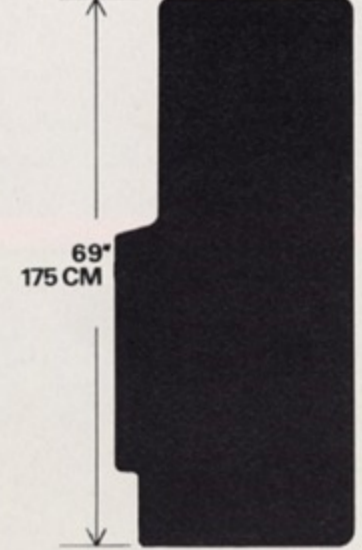

More Challenge, More Ap- peal!

As the player's score increases, more insects appear on the screen. This makes game play exciting for any player! And, FROGS is one of the first videos that really attracts the women players as well as men. High Score is continually displayed to invite competition.
