## NEW GAME RELEASE INFORMATION

---

Dear Sega Game Player,

This is a copy of our most current release date information; Updated on June 20, 1991. We've enclosed this information to let you know what we have planned for the coming months. If a game is not listed on this sheet than the game is not planned for release during the time periods covered.

For more information on the new games please call our Game Play Assistance line at (415) 871-GAME between 9am and 7pm Monday through Friday and 8am to 6pm Saturday through Sunday, PST. The game play counselors will happily give you information regarding game play type, skill level, and game strategies. We also offer prerecorded "up to the minute" game release announcements on this line. Sorry, but game release information or game play assistance is not available on the toll free 800 line.

Because we ship the cartridges to the retailer's warehouses or distributors you may not see the most recently shipped titles in your local stores. Our release date information should be viewed as shipping times from our warehouse, it is not intended as a promise of when games will arrive at your local retailer.

In an attempt to keep you better informed we've coded the games in the ways shown below. We hope this information will help you to choose the type of games you like within the skill level most appropriate to your level of expertise.
