OVER **300** FANTASTIC GAME BUSTING CHEATS

# Instructions

Congratulations! You have purchased the ultimate game enhancer for the Sega Dreamcast™ game console that will take your gaming to new levels of fun and excitement. The Cheats 'N' Codes disc allows you to use the pre-loaded codes, programmer's cheats and game saves to make enhancements to your Dreamcast games that you once thought were impossible. Find new levels in your favorite games, gain infinite lives and modify the game to your specifications.

## Start-Up Instructions

1. Turn off your Dreamcast. Now place the Cheats 'N' Codes CD-ROM in your Dreamcast and close the lid.
2. Insert a game controller into Controller Port #1.
3. Turn your Dreamcast ON.

## Main Menu

The Main Menu is composed of two items:

- 1) **Start Game** - Play your Dreamcast game with the cheat codes you selected
- 2) **Select Codes** - Select codes you want enabled in your chosen game

## Start GameShark

Selecting this option will start the GameShark cheat engine. The first menu will give you two options: Start Game and Select Cheat Codes.

**Start Game** - Choosing Start Game from the main menu, takes you to the Start Game Options Menu where you have three options:

### Option 1: Start Game With Belittled Codes

This option starts the game using the enhancement codes chosen from the Select Cheat Codes menu. You will be prompted to remove your Cheats and Codes CD-ROM, and then insert the game CD.

### Option 2: Start Game Without Codes

This option starts the game without any enhancement codes. The game will play as normal.

### Option 3: Cancel

This option takes you back to the Main Menu.

**Select Cheat Codes** - This option lists the games supported by this volume of Cheats and Codes. The titles are listed alphabetically.

At the bottom of the screen you can see the highlighted game and the number of codes that are active. Once you have selected a game, a full list of codes will appear on the screen for that game. Press the A button to toggle codes on and off. You can activate almost any combination of cheats. Activated codes will be highlighted in yellow. When you are finished selecting the desired codes, press the B button to return to the previous menu, or the Start button to go to the Start Game menu.

## Trouble Shooting

If you are having problems with codes, make sure you have entered the code or codes properly. Some games require an access code labeled as "ALWAYS MUST BE ON." This code should be highlighted in green at all times on the Cheats and Codes disc will not be able to load the game properly. If you are still having problems, you can call our Technical Support department at (410) 795-4064. Please DO NOT call this number for codes, as they are not available through Tech Support.
