What is Dark Water?

The adventures of Dark Water take place on the mysterious, watery world of Mer where strange floating patches of Dark Water consume anything unfortunate enough to make contact with it. Only the Treasures of Rule appear to have an effect on this ominous force. Young Ren, heir to the throne of Octopon, takes to the high seas with his crew — Ioz, the hardened ex-irate, and Tula, the adventure-seeking heroine — to face bloodthirsty beasts and the blackhearted Pirate Lord Bloth on a quest for the fabled lost treasures! The crew's monkey-bird friend, Niddler, is also on hand to assist the heroes, but usually for the price of fruit. Whoever gains the Treasures of Rule first will have the power to control the Dark Water and chart the course of Mer for ages to come.

How to Start the Game

Insert the Pirates of Dark Water game cartridge, then turn the system ON. At the title screen press the Start button or go into the Menu screen.

The Quest for the Treasures of Rule

The Pirates of Dark Water is a one-player action adventure where you choose one of three heroic characters — Ren, Tula or Ioz. Each game begins with 3 lives. Your quest

is to find the Treasures of Rule. In order to do this, you must fight off Bloth's evil army of pirates.

Completing each level will bring you closer to finding each of the treasures. Only after you have collected all the Treasures of Rule can Mer be returned to its former glory and the Dark Water controlled.

Each character has several attack techniques.

Enemies can be defeated by slashing them with your sword, releasing a potion or using a special attack. You

have a limited supply of special weapons which is indicated in the top right corner of the screen. To continue using your special weapon, pick up icons to refill the inventory. Attacks vary, depending on which character you are and the enemy's location.

There are several items that you can pick up to assist you in the quest.

Items like food and hearts refill your life bar. Gold coins can be exchanged for information and keys can be used to open doors. Minga melons are the fruit of choice for Niddler, who will help you when his stomach is full. Mysterious potions can also be picked up and used at different times. The potions assist the hero during the game by supplying a special power.

During game play, you also have the ability to speak to certain characters. A communication screen will appear when you walk into

characters that will talk to you. Some characters will trade information for gold. They might give you hints that lead to the end of the level or open doors for you.

The game is over when you complete all levels and collect all the Treasures of Rule or lose all your men. There is a continue option that will let you pick up where you left off if you have not completed the quest. The action will be fast and furious, so prepare to cast off and let the quest begin!

The Heroes

Ren

Ren is the young heir to the throne of Octopon and leader of the quest. His integrity, loyalty and sense of honor are a source of strength to those around him.

Special weapon: Dagger

Tula

Tula is a spirited warrior who can hold her own against any man. As an excellent strategist, Tula can be relied on in a tight spot. Her special weapon fires a burst of electrical energy straight at enemies in her path.

Special weapon: Ecomancer Energy

IoZ

IoZ is a fortune hunter and ex-pirate who will do almost anything for a handful of gold. He has a quick temper and is a force to be reckoned with.

Special weapon: Dragon-Bow

Niddler

Also assisting you in the quest for the treasures is the monkey-bird, Niddler. Niddler can be called upon when the ship drops anchor at a location. He will usually give information to the heroes but if he is hungry he will expect some fruit in return.

Niddler can also be called upon while completing a level. Here he can be given fruit (10 Minga melons to be exact) and in return, Niddler will fly the hero back to the Wraith. At the Wraith, you may select another hero to return to the scene.

Inventory Screen

The inventory screen provides information on the special pick-ups and treasures collected. Potions and other special pick-ups must be selected from the inventory screen before you can use them. To access the inventory screen press the Start button.

The number of special weapons available is shown in the inventory screen as well as the number of keys available to open doors. The amount of food available can increase the hero's health while the number of hearts available can increase the actual life bar. The maximum number of

food and hearts the hero can hold in the inventory screen is three. The inventory screen also shows how many coins and Minga melons have been collected.

There are four types of potions that can be collected. When the gravity potion is released, the hero can jump further than normal. The stone elixir will freeze enemies for a short time. The shield magic gives the hero invincibility for a short time. The vortex magic surrounds the hero with a protective sphere. The hero may still attack enemies but can't be harmed.

World Map Screen

At the beginning of each game and in between levels, the world map of Mer will appear. The present position of the Wraith is marked by the face of a hero. Overlaying much of the map is the ominous Dark Water.

You can choose your next location by sailing the Wraith to a port. Position the icon over the city or location. When a destination is chosen, Niddler will give a description of the location.

Passwords

At the completion of each level, you will be given a password. This password will allow you to begin game play at a specific level. To use the password, enter the Menu screen at the beginning of the game and select the password option. Use the directional button to enter the password and you will begin at the level for which you entered the password.
