

After Burner: Black Falcon™

Platform: PSP

Genre: Arcade Flight Combat

Developer: Planet Moon

Release Date: March 2007

After Burner: Black Falcon takes flight with 15 officially licensed aircraft in the first and most intense arcade-style air combat on the PSP. Fly at maximum speeds in an F-14 Tomcat using high-powered weapons to destroy land and air-based enemies, or break the sound barrier in an F-18 Super Hornet while navigating through a motley array of environments and dodging oncoming attacks. Gamers are sure to experience a whole new way to play the classic fan favorite *After Burner* arcade game, that's rebuilt from the ground-up, with a vast variety of customizable abilities and features, and highly competitive multiplayer and single player modes.

Using the robust customization feature, players can arm each military jet with an array of weapons, design customized aircrafts, and improve performance by installing a variety of engine components for faster, more manoeuvrable fighter planes. Players will also be able to acquire various weapons and aircraft by defeating squadrons of enemies and special bosses.

Continue the combat in multiplayer challenges available in both competitive and co-op modes. Gamers can challenge up to three other players competitively via ad-hoc, or work with another pilot to achieve co-op goals. Head for the danger zone and get ready for an over-the-top dazzling and explosive arcade experience with *After Burner: Black Falcon*.

KEY FEATURES:

- **Intense gameplay:** Feel the adrenaline-charged arcade experience by flying military fighter jets engaging in fast-paced, explosion-rich combat.
- **In-depth customization:** Arm each military jet with an array of weaponry, design your aircraft using an assortment of paint jobs, nose art and other cosmetic upgrades, and improve performance by installing various engine components creating a faster, more manoeuvrable and deadlier fighter plane.
- **Online multiplayer modes:** Find a wingman and work together to destroy enemy targets in co-op mode or compete with up to four friends in several ad hoc multiplayer modes.
- **Officially licensed aircraft:** Take to the skies with 15 official military planes such as the F-14 Tomcat, F-18 Super Hornet, F-14D Tomcat, F-15E Strike Eagle, F-22 Raptor, and Harrier providing realism and variety.
- **Single-player campaign:** A mercenary organization has stolen 13 top secret fighter planes. Your mission is to recover these military jets by engaging in high intensity combat and destroying their leader Cruise and his lieutenants.
- **Pick up and play controls:** Quick, responsive controls that are easy to learn provide for on-the-go gameplay.
