**There is Nothing Clean
About Dirt Racing!**

There is nothing clean about Dirt Racing!

Sega's R&D Team, AM3, creators of incredibly successful Jurassic Park "The Lost World" and top video game simulator Top Skater, take their technical genius to the road with their latest project Dirt Devils.

Get behind the wheel of one of five super cars and experience the feel and strategy of real dirt racing. Hold on tight as you slide your super-charged off-road vehicle through unbelievably sharp turns, bottom-out in huge potholes, fly through dual level intersections, navigate through watery swamps, and attempt driving at night with only your headlights to guide you. A rear view mirror and onboard radar screen help you keep track of your competition, as you race for glory, on one of the 3 heart pounding courses. All this, while smashing into your opponents car(s) and collecting valuable points, as you pass all the checkpoints in the allotted time.

Game Features

- 5 Super-charged cars to choose from.
- 3 Challenging and tricky 3-D courses plus a extra hidden track.
