Charming Yuko!

In SYD OF VALIS, Yuko appears in an attractive cartoon character form. She has many different expressions, so take a moment from the game and look at Yuko on the screen. She will stop to look at you and smile!

**Yuko has 6 different costumes.
Appreciate what her costumes can do!**

Sailor Suit

D-POW 10
A-POW 10
SPEED 10

This is a basic costume Yuko wears at the beginning of the game, and the most popular outfit for Yuko in the Valis game series.

Oriental Dress

D-POW 15
A-POW 8
SPEED 10

This is one of Yuko's original costumes for this new game. This pink dress will gain more attack power for Yuko, but on the other hand, it will lower her defense power.

VALIS Suit I

D-POW 20
A-POW 10
SPEED 15

Together with the Valis Sword, this Valis Suit is a regular item belonging to Yuko, and a symbol of the Valis Warrior. Its attack power, defense power, and speed are above average.

Speed Suit

D-POW 20
A-POW 10
SPEED 20

This suit is another original. This streamlined suit exceeds any other costume for its speed capability. When Yuko wears this suit, take advantage of its mobility to attack enemies.

Guard Suit

D-POW 10

A-POW 20

SPEED 10

This is also an original suit for SYD OF VALIS. Its emphasis is on defense power. The attack power and speed is the same as the Sailor Suit, but its defense power exceeds any other costume. Use it where enemy attack is heavy.

**Valis Suit II**

D-POW 25

A-POW 20

SPEED 15

This is the best of all costumes. The flaming crimson color of the suit is exceptionally beautiful and its defense power is the best. When you get this costume, you need not fear the enemies.

Yuko's Great Adventure Into the Dream World

**Stage Introduction**

Emperor Megas is scheming to overtake the Dream World, and Yuko, the Valis Warrior, is here to snuff out the ambitious emperor. This is a comic book adventure game which starts from the Human World (reality) where Yuko lives. It goes onto the Dream World where the Castle Megas is located.

There are 5 stages in this game. Each stage has a boss character, and you must defeat them until you reach the last stage where Emperor Megas is waiting. All the enemy characters are in cute cartoon forms, but you must be very careful. Good luck!!

Stage 1: Reality

This stage is divided into 3 ACTs: Downtown, Shinkoiwa Railway Station, and the underground. Master the basic operations in this stage.

A middle boss in ACT 1 has a huge head, but he can fly.

There is nobody on the platform of Shinkoiwa Railway Station but enemies.

Zaruga, the Red Fighting Dragon: He has a gigantic body. When he walks the earth shakes.

Stage 2: Dream World

Stage 2 has two ACTs; one is a cave that leads to Castle Vanity and the other is an entrance to the castle. Don't fall into a trap!

Try not to fall down from the moving floor. If you fall, you land on dangerous thorns.

The ground is moving upward. Something is waiting for you!

Gilan the Panther Dragon
His huge sword reflects mysterious light.

Stage 3: Castle Vanity

This stage is divided into 3 ACTs, and enemy attacks are getting worse.

Despite the lovely interior of the castle, the game action gets heated.

The middle boss is shaped like a ship. What is his secret?

Ghyahs, the Blue Rhino He has a strong mechanical body.

Stage 4: Megas' Territory

Stage 4 has 3 ACTs, and all are passages to Castle Megas. These passages are very complicated, so be careful!

The terrain is very rocky. As you climb up the terrain...

Knock down all the small fries and proceed to Castle Megas.

Warlock Hyzen
He is Emperor Megas' trusted counselor.

STAGE 5 Castle Megas

This is the last stage of the game, and it consists of 3 ACTs. Emperor Megas is waiting for you at the end of this stage.

This is an elevator area. Watch for enemy attacks from above and below you.

If you knock down a middle boss, be wary that the last boss, Megas, is still waiting.

Emperor Megas
He is the biggest and strongest enemy in this game.

Techniques for Conquering Stages

Learn how to choose the right weapon for each scene!

In the beginning of the game, Yuko has one type of weapon. Whenever you knock down middle and big bosses, you gain more weapons and costumes. When you are moving, the tracer beam is the best out of all four weapons. When you are facing a big boss, the three-way beam is most effective. (Note that you cannot use bombs on middle and big bosses.)

As you can see on this scene, choosing the right attack method for the scene is the fastest way out of the stage. **GOOD LUCK!**
