

Catch some Extreme Air with

AIR TRIX™

Be the coolest dude and experience the thrill of the Championship Half-Pipe skateboarding. This is the first virtual spin machine in the world!

A totally realistic radical experience but without the broken bones.

Select your player and pick the area you want to strut your stuff. It is then a quest for sweet looking tricks and high scoring manoeuvres. Just before you hit the lip of the half pipe, slam the back edge of the board to catch some air, then start wiggling and spinning the board for airborne tricks. Grinds are accomplished by spinning the board parallel to the screen before you hit the lip. Grind too far and you will be tossed off the lip of the half pipe

Dimensions

W: 117cm 46ins
D: 270cm 106ins
H: 225cm 86ins

Features

- Fast actioned realistic extreme boarding sensation
- 3 stages of skating action
- Training mode to learn the basics of how to do a combo, spin and grind
- Intermediate - Negotiate the 2 ramps in a town and a stadium environment
- Expert - Be ultra cool on the the most technically difficult two ramps set in a factory and suburban district
- Select from five of the hippest Characters (3 male and 2 female) each with their very own unique style and signature moves
- New Fully articulated "deck" lets you bust up your baddest moves
- Awesome digital rock music from the Ministry of Boom Boxes
- Internal high class UHA makes players play with eye catching effects
- Players feel like they're flying through air as they jump and perform tricks with simple manoeuvres. Easy enough for beginners and non-skateboarders, but challenging enough for expert skaters, who can try for high scores.
- Each play feels new and fresh, challenging players to new heights in hot dogging.
- Faithfully recreates the thrill of skateboarding speed and moves, allowing player to perform kick flips, 180 degree turns, hang 10's, French Flyer Twist, Switch Rock n' Roll Fake Out, Back Loop, Nose Blunt, Mactwist, Nose Grabs and multi spins.
- The pivot is located in the middle of the board, which makes "Spin operation" possible
